GOT2000

Graphic Operation Terminal

iQ Platform

The Mitsubishi Electric
Graphic Operation Terminal GOT2000 series
continues to impress with solutions
that fulfill all demands.

The GOT2000 boasts advanced functionality, acts as a seamless gateway to other industrial automation devices, all while increasing productivity and efficiency.

The high quality display is designed to optimize operator control and monitoring of device and line statuses. If you are looking for an intuitive operation terminal, the new tablet-like operability and the higher functionality of operation terminal makes the GOT2000 the ideal choice.

Incorporate the GOT2000 to bring forth flexibility, productivity, and quality on a global scale.

Advanced model with multi-touch gesture functions

- 65K color TFT LCD display available in the following screen sizes: 8.4", 10.4", 12.1" and 15"
- Tablet like gesture functionality and multi-media features create an intuitive user experience
- Communication interfaces such as Ethernet, RS-422/485, USB host/device and SD memory card are standard features
- High capacity data processing ensure smooth screen operation even when multiple tasks, such as logging, script, alarm, or device data transfer, are running

- Display..... 65K color TFT LCD display, 8.4", 10.4", 12.1" and 15"
- Resolution XGA, SVGA, VGA
- Backlight..... White LED
- User memory..... Memory for storage (ROM): 57MB
Memory for operation (RAM): 128MB
- Standard interface..... Ethernet, RS-232, RS-422/485
USB host 2ch (High-Speed 480Mbps) (White model has 1ch)
USB device 1ch (High-Speed 480Mbps)
- Extension interface..... Bus, MELSECNET/H, CC-Link IE, CC-Link

GT27 Standard model

Human sensor

The unit automatically detects an operator approaching the unit and displays the screen. When no one is around, the backlight turns off to save energy.

* 15" and 12.1" only

USB device

Transfer data without opening the cabinet.

USB host

Transfer screen data or read the data to or from the GOT using the USB memory.

A USB mouse and keyboard connection is also supported.

Simple design

The stylish and simple design with a linear motif is sleek and complements any machine design.

LED backlight

The long life cycle minimizes maintenance and replacement costs.

Extension interface

Communication and option units can be installed.

Ethernet

Use Ethernet to simultaneously connect to up to four types of PLCs from different manufacturers.

RS-232

Connect to various industrial devices, barcode readers and serial printers.

RS-422/485

Easily connect to various industrial devices.

SD card slot

Save large volumes of data, including alarms and logging data.

Side interface

Mount a wireless LAN communication module.

USB host

Save the alarm and logging data by connecting a USB memory stick. A USB mouse and keyboard connection is also supported.

USB device

Connect to a personal computer and transfer data.
* The white model only

GT27 White model

* Back side is the same as the standard model

NEW

Small screen, big possibilities

- Monochrome (black/white), 32 shade grayscale TFT LCD display available in the following screen size: 3.8"
- 320x128 dot high-resolution LCD, four times higher resolution than conventional model (GT1020)
- 5-color LED backlight (white, green, pink, orange, red)
- Ethernet interface (GT2103-PMBD only)
- Advanced features such as data logging, multi-channel communication and FA transparent function are supported

Display.....	Monochrome (black/white), 32 shade grayscale TFT LCD display, 3.8"
Resolution	320x128 dots
Backlight.....	5-color LED (white, green, pink, orange, red)
User memory.....	Memory for storage (ROM): 3MB
Standard interface.....	GT2103-PMBD : Ethernet, RS-422/485
	GT2103-PMBDS : RS-232, RS-422/485
	All models : USB device 1ch
	(Full-Speed 12Mbps)

High-definition LCD with changeable color backlight

GT2103 is equipped with an easy to see, compact high-resolution TFT LCD with 32 gray scales. The intuitively understandable 5-color backlight offers choices of backlight color and backlight blink according to machine operation state.

The backlight can also be controlled from the connected PLC (screen color change and backlight ON/OFF/blink).

Same compact type, but so much clearer!

Easily connect to various industrial devices.

RS-232

Connect to various industrial devices, barcode readers and serial printers.

GOT2000 - Designed to meet your industrial automation needs.

High-speed processing

Easily operate the screens even during high-load processing, such as logging, script, alarm or device data transfer.

(GT16 → GT27: monitor performance is 2-fold or more higher)

Comparison of GT27/GT16 monitor performance

Increased memory capacity

Design screens without worrying about the data capacity. The product data compression technology allows up to 128MB of actual space to be used without an SD card. (GT27)

* An SD card may be required depending on the project.

Comparison of GT27/GT16 ROM capacity

Enhanced lineup

The new GOT2000 is suitable for applications in any industry.

The GT27, GT25 white model provides an additional color option, and the flush frame without the USB port can be cleaned very easily.

The GOT can be installed vertically for extra flexibility when installed in confined spaces. **NEW**

Mounting to narrow operation panels and downsizing of operation panels are available at last!

* GT21 models should be rotated by 90 degrees to the right.

Use multi-touch gestures to operate your GOT in a more natural way!

Quickly set labels/devices with "Input Assist"! Upgrade

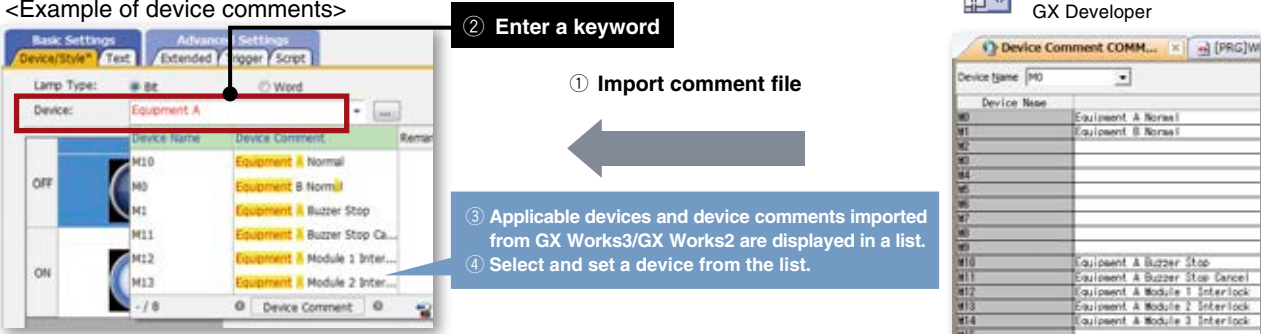

When setting your labels **NEW** /devices, "Input Assist" provides a list of applicable labels **NEW** /devices, complete with label comments **NEW**, device comments, and device definitions.

<Example of devices>

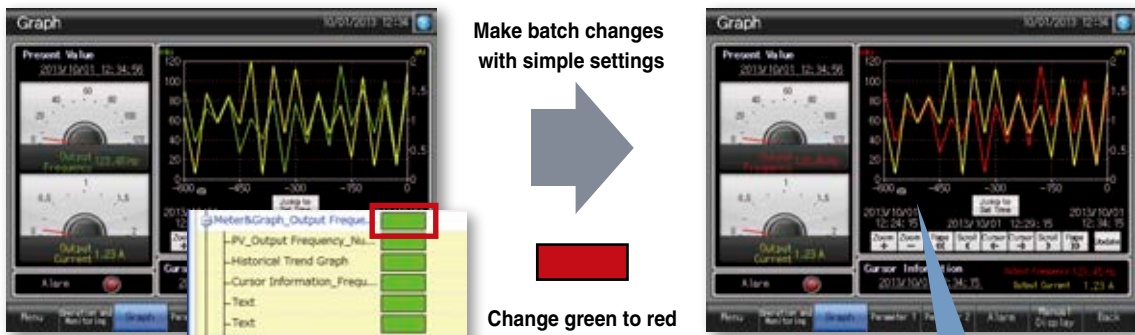

GT Works3 device setting area

<Example of device comments>

Use templates to greatly reduce your screen creation time!

Customize each template to the desired look-and-feel, ranging from color options to device selection. Attributes such as devices and colors can be set for each template. You can easily change devices and colors by associating each object with the template's attribute.

Template attributes (color)

- Historical trend graph line color
- Character string character color
- Numerical display value color
- ...

Items that can be registered in templates

Figures, objects

Attributes that can be registered and changed in templates

Devices (bits, words), numerical values, text, colors, figures, fonts, font size

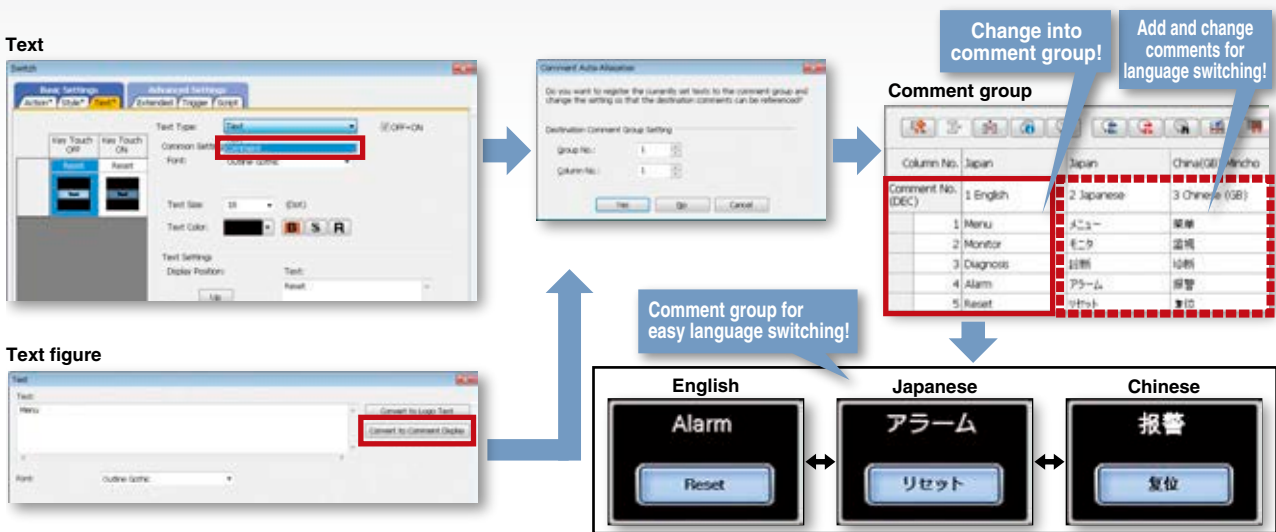

Maintain screens more efficiently

Quickly and simply correct existing screens using various functions

Easily create multi-language screens! **NEW**

GOT2000 only

The character strings of switches and lamps can easily be converted from the Text or Text Figures into Comments. This makes it easy to upgrade screens to display multiple languages.

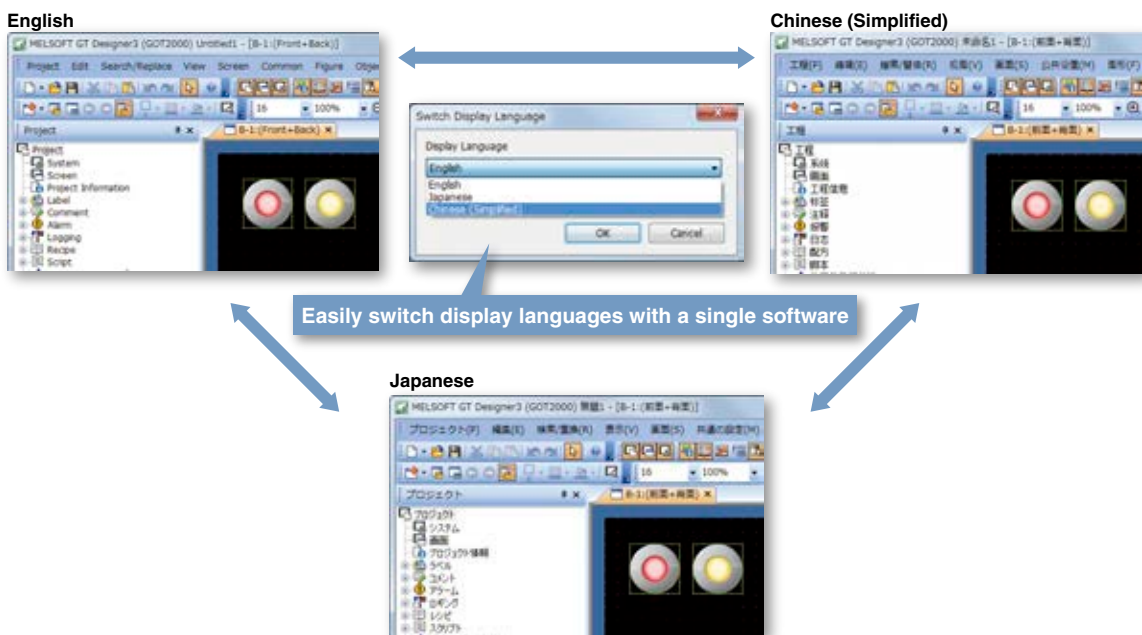

Useful for maintenance abroad! **NEW**

GOT2000 only

The display language of the GT Works3 menu bar, dialog, and others can be switched.

When maintaining the data abroad, away from where you created the data, the data editing work can be done smoothly by selecting a preferred language by the user.

* The GOT1000 series does not support multiple languages. It is recommended to purchase GT Works3 of the language to be used.

Easily upgrade from GOT1000!

Simply change the GOT Type using the screen design software to upgrade your GOT1000 projects to GOT2000. It will be a drop in replacement because the panel size is exactly the same.

* The screen data cannot be converted and the GOT type cannot be changed from GOT2000 to GOT1000.

An Easy and Flexible HMI Solution

Simplifying startup and debugging

FA Transparent Function & Wireless LAN Connection

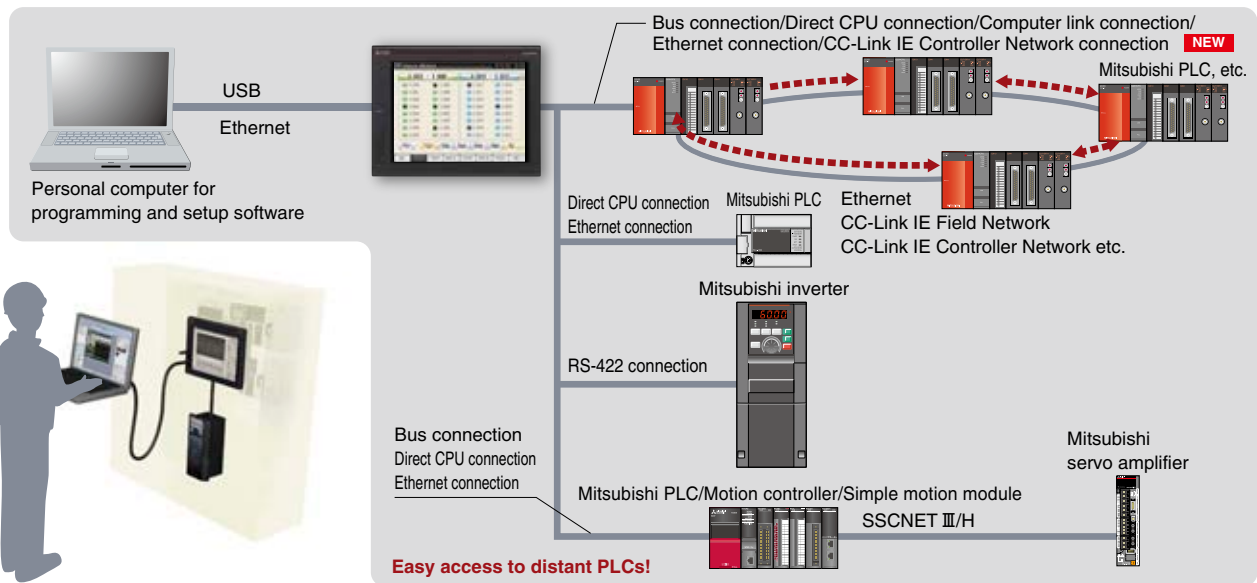

GT27 GT25 GT23 GT21

Simplifying the startup process of industrial automation systems

Connected with a personal computer, the GOT acts as a transparent gateway to enable programming, start up, and adjustment of industrial automation systems. Users do not have to bother with opening the cabinet or changing cable connections.

A wireless LAN connection between the personal computer and the GOT is supported. Startup and perform adjustments even without a cable connection. **NEW**

GT27 GT25 GT23 GT21

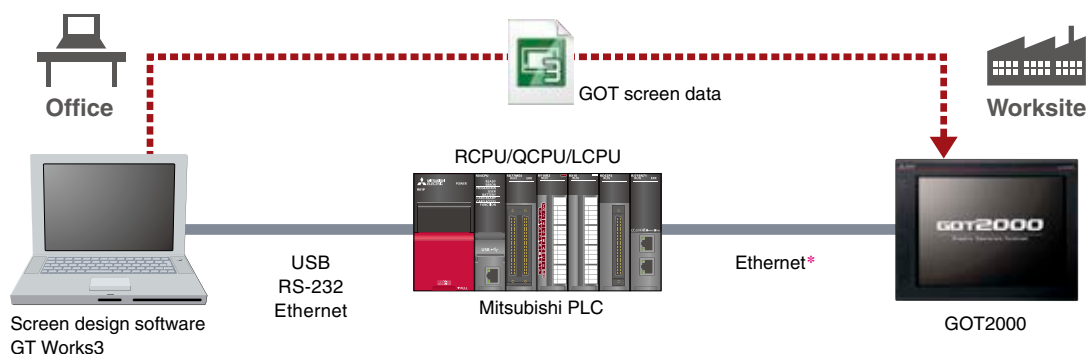

* Data transfer in wireless LAN communication may not be as stable as that in cable communication. A packet loss may occur depending on the surrounding environment and the installation location. Be sure to perform a confirmation of operation before using this product.
The product with hardware version A can be used only in Japan.
The product with hardware version B or later can be used in Japan (Japan Radio Law), the United States (FCC), the EU member states, Switzerland, Norway, Iceland, and Liechtenstein (R&TTE).

Transferring GOT screen data

GOT screen data can be transferred from a personal computer to the GOT2000 with a programmable controller acting as a gateway.

GT27 GT25 GT23 GT21

There is no need to connect cables directly from personal computers to the GOT.
Editing GOT screen data during startup and maintenance is now easier than ever.

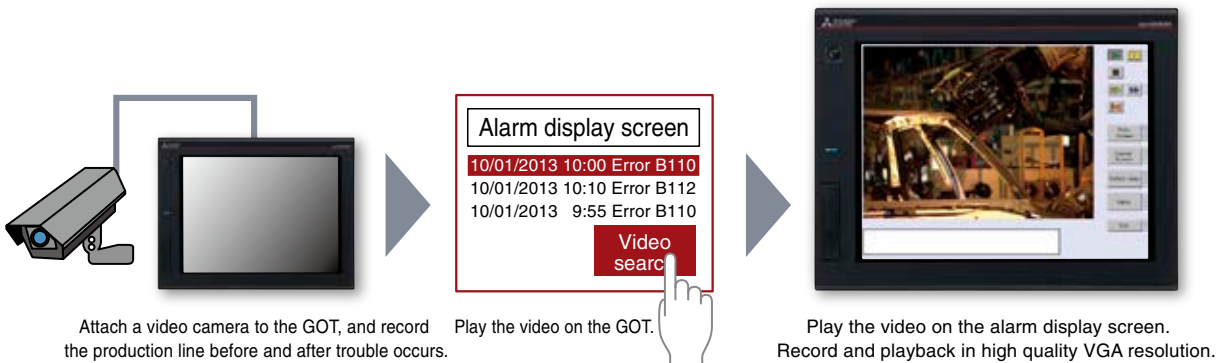

* This feature does not apply to a GOT connected to a CPU's built-in Ethernet port.

Record the worksite state

Multimedia Function

GT27 GT25 GT23 GT21

Quickly identify cause of errors by reviewing recordings of the production line.

[Recording specifications]

<Before-after event recording> ...A total of 240 seconds of images can be recorded, including 120 seconds before and after a system error occurs. (When event trigger device turns on.)

<Standard mode> ...Two types of recording modes are available. Recording size VGA (640×480), frame rate max. 15fps, or recording size QVGA (320×240), frame rate max. 30fps.

<Longtime mode> ...Approximately two days worth of video image can be recorded. The recording size is QVGA (320×240), frame rate is 15fps.

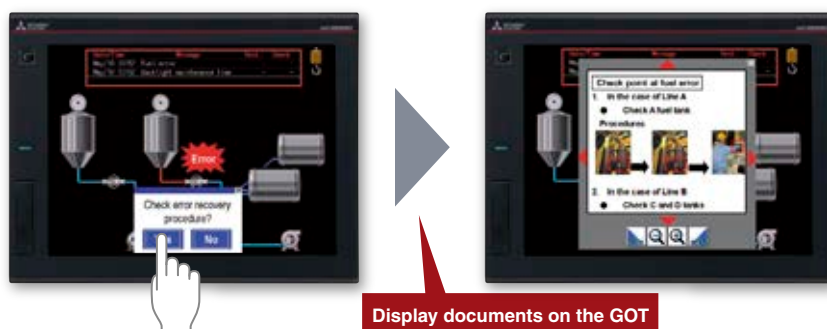

Review documents at the production site

Document Display

GT27 GT25 GT23 GT21

When errors occur on-site, a check sheet or manual can be displayed on the GOT with instructions on how to restore the system. This can reduce the downtime.

<Supported file format>
doc, xls, ppt, pdf, jpg, bmp

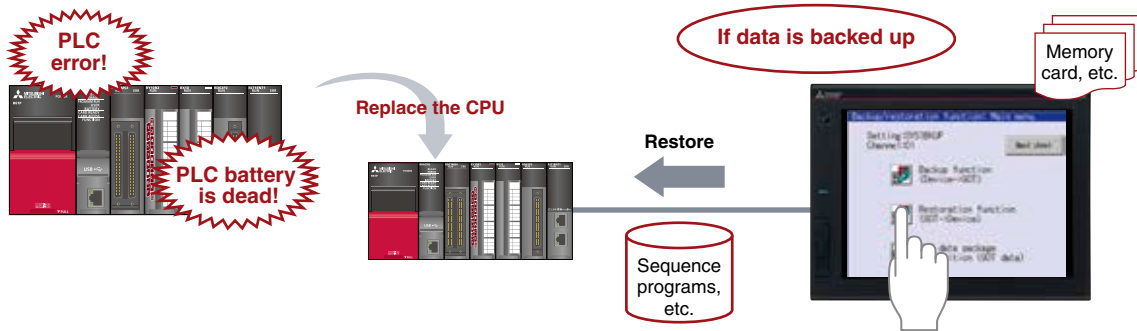

An Easy and Flexible HMI Solution

Easily backup and restore programs

Backup/Restore

GT27 GT25 GT23 GT21

Data such as the programs and parameters of the programmable controller CPU, motion controller, robot controller and CNC can be backed up onto the GOT's SD card or USB memory. With a backup of data in the GOT, there's no need to use a personal computer when replacing the industrial devices such as the programmable controller CPU. All replacement and restoration can be completed with just the GOT.

<Objective data> Programs, parameters, device comments, device default value data, file registers, etc.

<Objective models> MELSEC iQ-R Series* **NEW**
 MELSEC-Q Series (excluding Q12PRH/Q25PRHCPU), MELSEC-L Series, MELSEC-F Series
 Motion controller MELSEC iQ-R Series* **NEW**
 Motion controller MELSEC-Q Series (SV13/SV22 only)*, CNC C70* **NEW**
 Robot controller (CR750/751-Q, CR750/751-D, CRnQ-700, CRnD-700)*

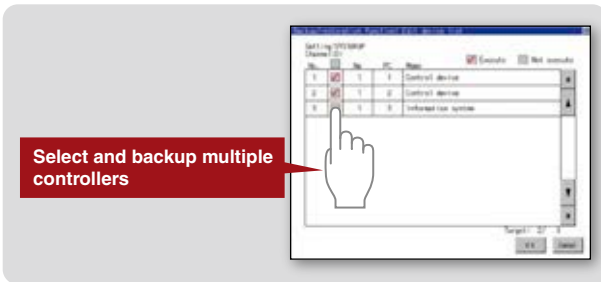

* Not supported by GT21.

<Supported connection types> Bus connection, direct CPU connection, computer link connection, Ethernet connection

Back up multiple controllers at the same time

Multiple controllers connected on Ethernet can be backed up at the same time, reducing the time needed to back up each controller separately.

* Not supported by GT21.

Automatic backup

Besides manual backup from touch switches, you can specify a trigger device, a day of the week, and time for automatic backup.

* Not supported by GT21.

Backup every Friday at 17:30

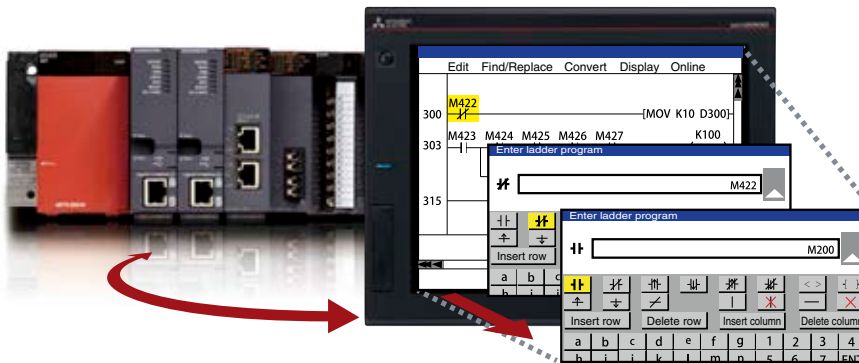

Monitor and edit ladder programs without a personal computer

Sequence Program Monitor

GT27 GT25 GT23 GT21

When an error occurs, monitor the ladder program and identify the cause of error. There is no need for a personal computer on the production floor.

Just touch the GOT screen and easily edit the ladder program to make simple changes.

<Target models> MELSEC-Q Series (excluding QnPHCPU/QnPRHCPU), MELSEC-L Series, Motion controller MELSEC-Q Series (programmable controller CPU section)

* To be supported by MELSEC iQ-R Series soon.

An Easy and Flexible HMI Solution

Check logging data of a CPU and high speed data logger module without a personal computer

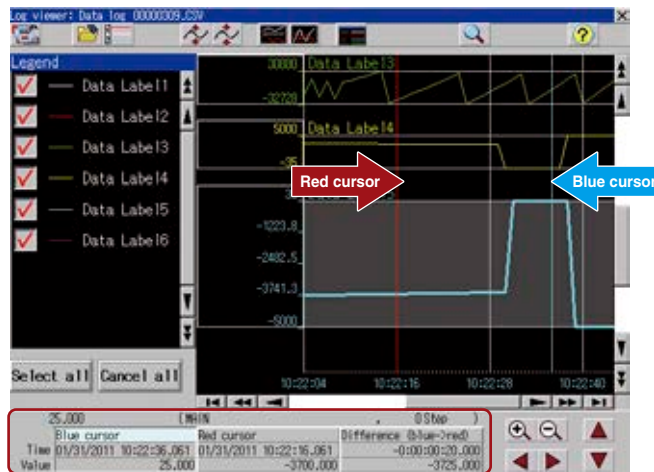

Log Viewer

GT27 GT25 GT23 GT21

Logging data collected by the data logging function of an RCPU **NEW**, QnUDVCPU, LCPU or high speed data logger module can be displayed on the GOT.

By displaying multiple cursors, changes in data can easily be checked. The collected logging data can be searched for by index No.

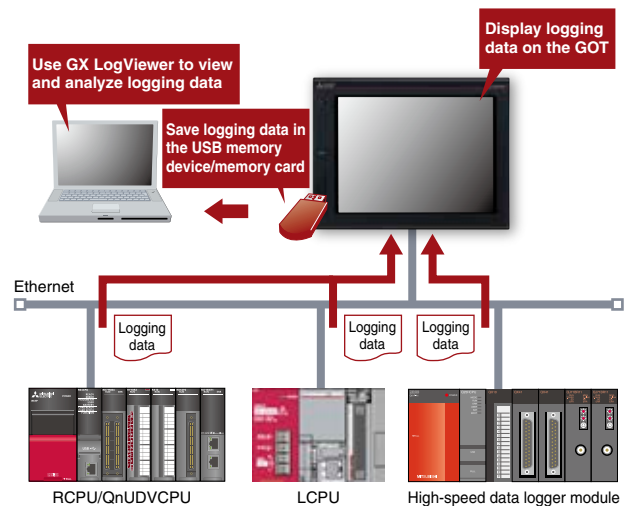

<Data to be displayed> ... Data logging (historical trend display)

You do not need to have a PC onsite. Check logging data from the GOT, and you can take corrective actions quickly.

The logging data can be copied to a USB memory device attached to the USB interface on the front of the GOT. You can retrieve the logging data easily with the GOT without removing the memory card from the CPU or the high speed data logger module.

Connect a personal computer to the front USB interface of the GOT to view the logging data with the GX LogViewer, or to change the logging settings with the CPU Module Logging Configuration Tool or the High Speed Data Logger Module Configuration Tool. (FA transparent function)

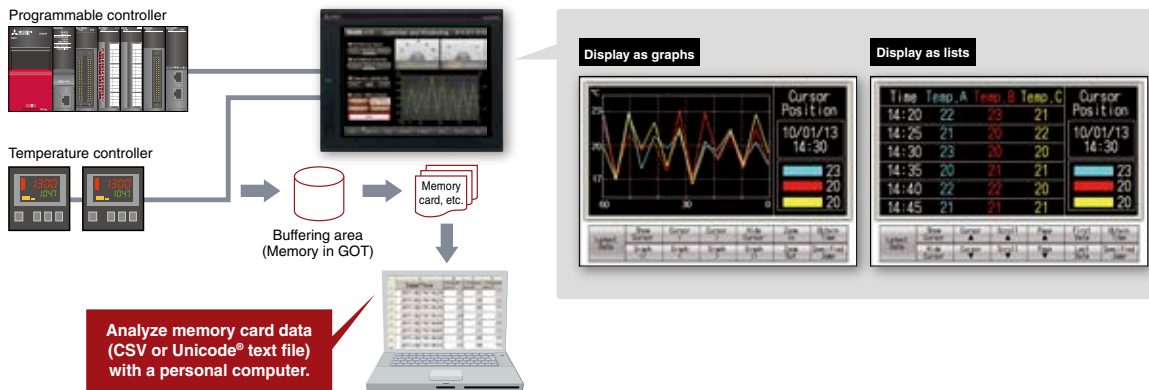

Easily collect data

Logging & Graphs and Lists

GT27 GT25 GT23 GT21

Use the GOT to collect data from the programmable controller and temperature controllers. The data can be displayed in graphs and lists. It can also be exported to a personal computer for further analysis. The logging data can be saved in the built-in SRAM even if the power fails.

<Supported device formats> ... Bit, BIN, BCD, real numbers, character strings **NEW**

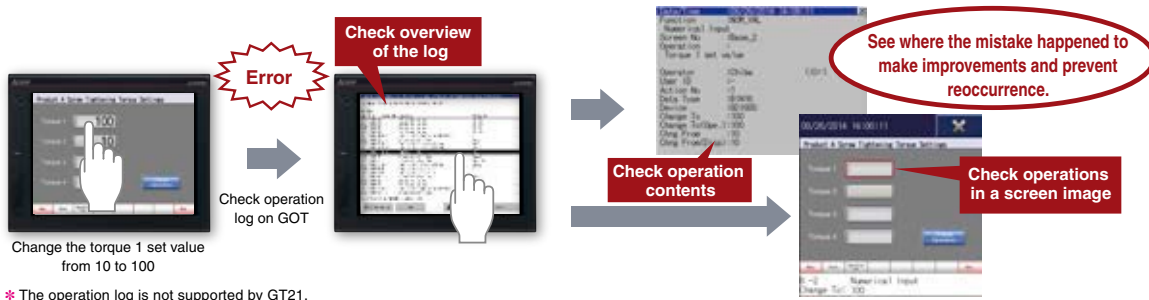

Easily identify the cause from operation history

Operator Authentication & Operation Log

GT27 GT25 GT23 GT21

The operation and display level (authority) can be set for each operator to strengthen security and prevent operation errors from reoccurring.

The operation log file saved with the operator information can be viewed to identify causes, and help make improvements and prevent recurrence.

* The operation log is not supported by GT21.

Perform changeover even without changing the ladder program

Recipe Function

GT27 GT25 GT23 GT21

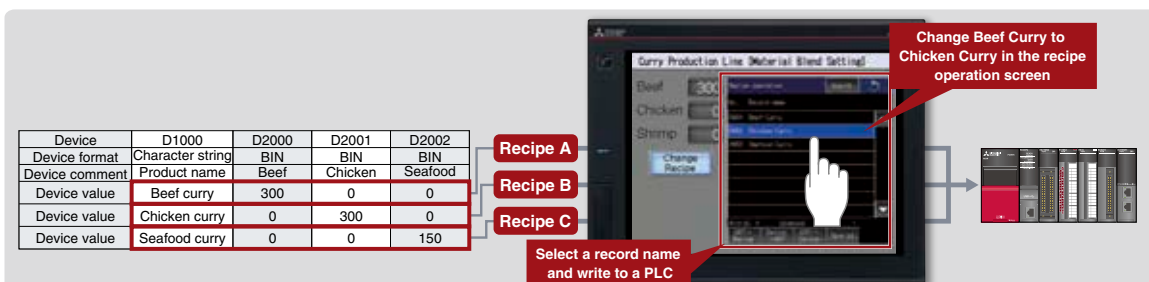

Recipe information (device values) such as material blend and machine conditions are saved in the GOT. This information can be written from the GOT to quickly perform changeover.

Recipes can be changed (changeover) easily by selecting recipe file name and record name on the user-created screen.* **NEW**

Recipe files can be converted into CSV files or Unicode® text files and easily edited on a personal computer.

<Supported device formats> ... Bit, BIN, BCD, real numbers, character strings

* Not supported by GT21.

An Easy and Flexible HMI Solution

Identify the cause of alarms

System Alarms

GT27 GT25 GT23 GT21

Information such as the channel No., network No., station No., and CPU No., has been added to the system alarm making it possible to identify the abnormal device just by looking at the current alarm.

The number of the screen and the ID of the object that caused the alarm are also recorded and displayed, so that operators can easily identify what operations caused an alarm.

Easily search for causes when alarm occurs

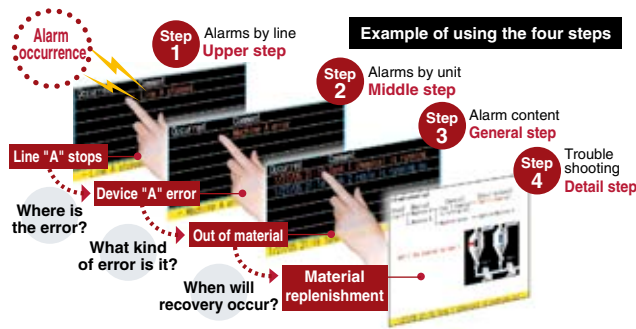

Alarm Function

GT27 GT25 GT23 GT21

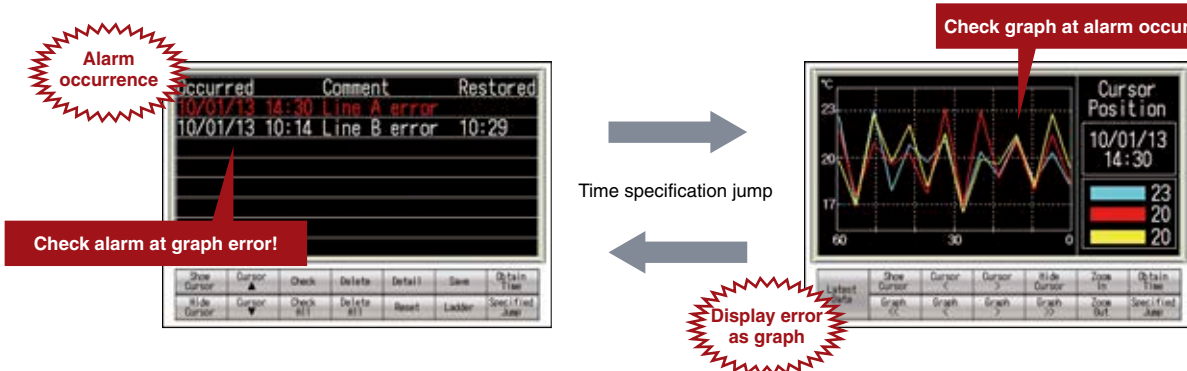

Alarms can be divided into groups and displayed by system or levels, or can be displayed all at the same time.

Troubleshooting multiple alarm occurrences may be complicated in a large system, however, breaking down the alarms leads to effective and fast resolution. The alarm log data can be saved in the built-in SRAM even if the power fails.*

* Not supported by GT21.

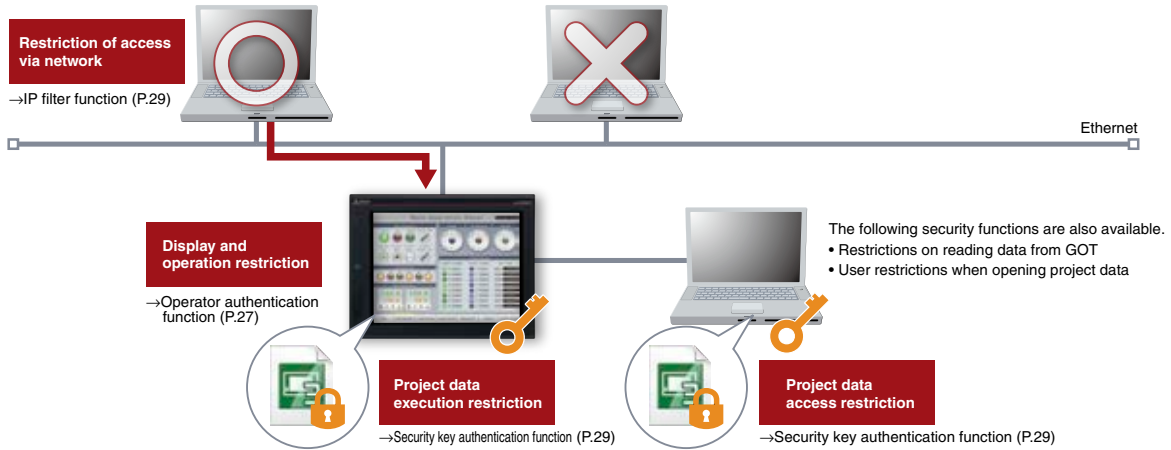

The alarm function works with the logging graph, so that the situation at alarm occurrence or graph error can be seen easily.

Protect valuable assets Various security functions

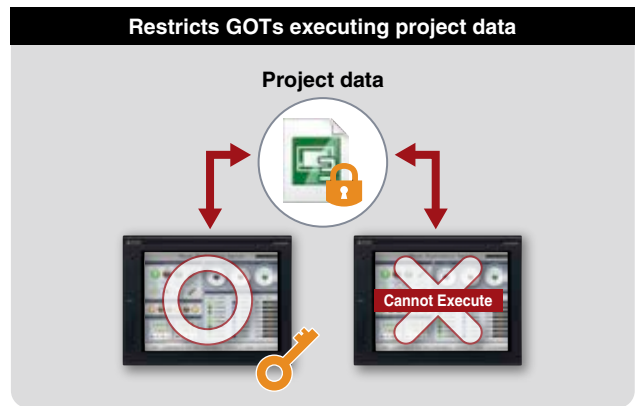

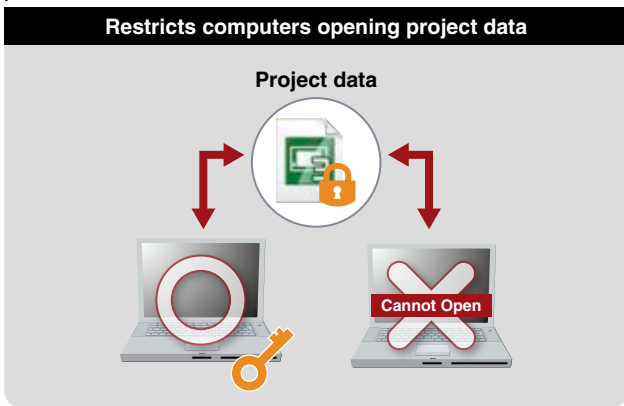

Various security functions protect customers' assets.

Protect your project data from alteration and duplication! Security Key Authentication Function

GT27 GT25 GT23 GT21

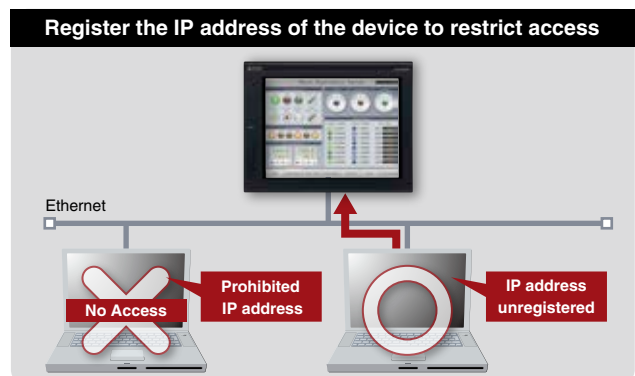

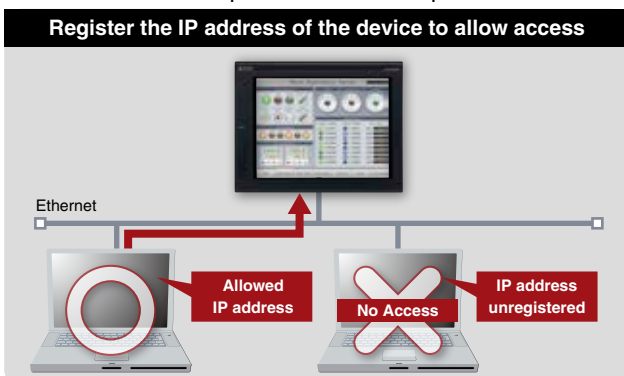

With the security key authentication function, computers without registered security keys can't open project data. As well, because GOTs without registered security keys can't execute project data, your techniques (know-how) are protected from information leaks.

Reduce risk of unauthorized access through networks! IP Filter Function

GT27 GT25 GT23 GT21

By registering the IP addresses of devices which can access the GOT or which are prohibited to access the GOT, access from devices without permission can be prevented.

Powerful Remote Access Options

Operate GOT remotely

GOT Remote Access (VNC Server)

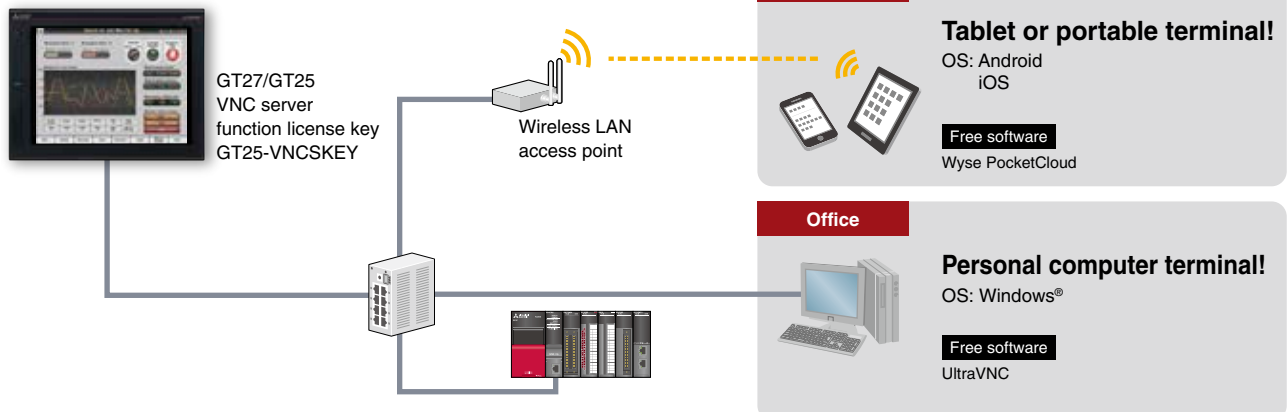

GT27 GT25 GT23 GT21

Remotely view and operate the GOT screen from a personal computer, tablet, or portable terminal that is connected via Ethernet.

Utility functions including the sequence program monitor and the network monitor are also supported.

<System configuration>

* For the list of applicable VNC client software, please refer to the Technical Bulletin No. GOT-A-0069.

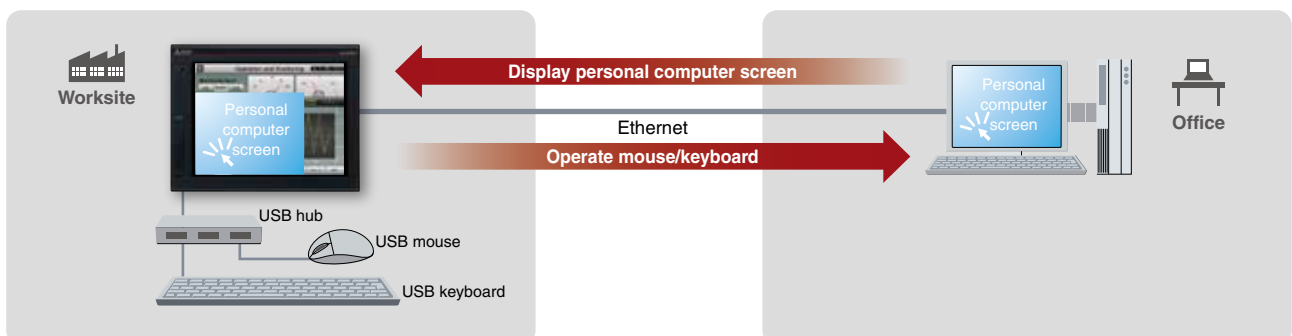

Use GOT to remotely operate a personal computer

Remote Personal Computer Operation (Ethernet)

GT27 GT25 GT23 GT21

A GOT can remotely operate a personal computer that is connected via Ethernet. Connect a USB mouse and keyboard to the USB interface found in the front or at the back of the GOT. This allows you to open files such as manuals that are stored in the personal computer, view the computer's browser, and use engineering tools.

* A separate license (GT25-PCRAKEY) is required.

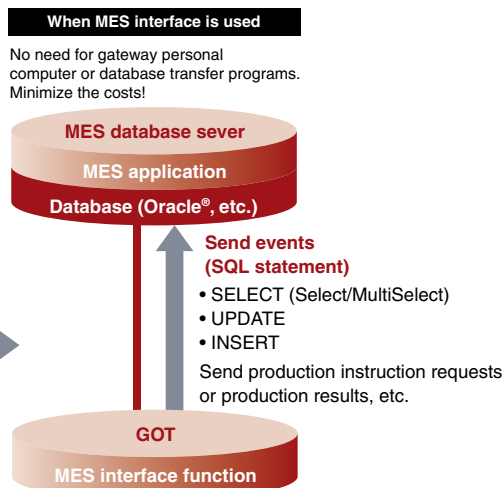

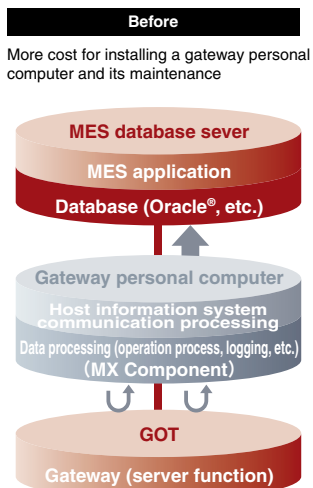

Communicate with databases MES Interface Function

GT27 **GT25** **GT23** **GT21**

The GOT uses SQL statements to directly transmit data from the connected industrial devices to a database server. The communication with the database is configured in GT Works3 without any programming. There is no need for a gateway computer or complex programming to communicate with the MES database server.

* A separate license (GT25-MESIFKEY) is required.

- SELECT (Select/MultiSelect)
- UPDATE
- INSERT

MES Interface Functions

- DB interface function (tag function / trigger buffering function / trigger monitoring function / SQL text transmission function / < SELECT (Select/MultiSelect) / UPDATE / INSERT > / arithmetic processing function / program execution function / DB buffering function)
- SNTP time synchronization function • Resource data send function • Diagnostics function
- DB server function (ODBC connection function / connection setting function / log output function)

Usable databases

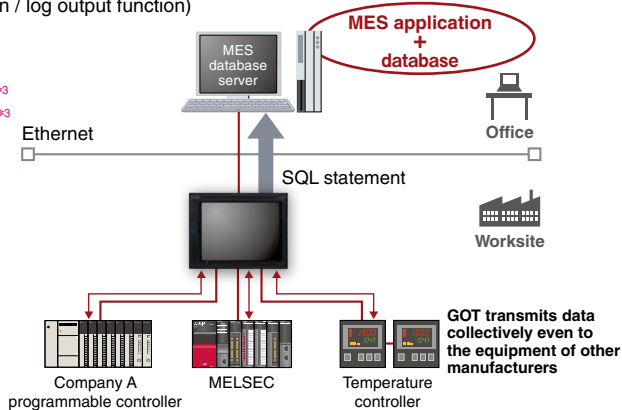

- Oracle® 12c^{*1} **NEW** • Oracle® 11g^{*2} • Oracle® 10g/9i/8i^{*3}
 - Microsoft® SQL Server® 2012/2008 R2/2008^{*2} • Microsoft® SQL Server® 2005/2000^{*3}
 - Microsoft® SQL Server® 2000 Desktop Engine (MSDE2000) • Microsoft® Access® 2013^{*3}
 - Microsoft® Access® 2010^{*2} • Microsoft® Access® 2007/2003/2000
- *1: Compatible only with 64-bit versions.
 *2: Compatible with 32-bit and 64-bit versions.
 *3: Compatible only with 32-bit versions.

<MES (Manufacturing Execution System)>

The manufacturing execution system (MES) is a system that controls and manages production processes at a worksite in order to optimize quality, productivity, delivery date, and cost.

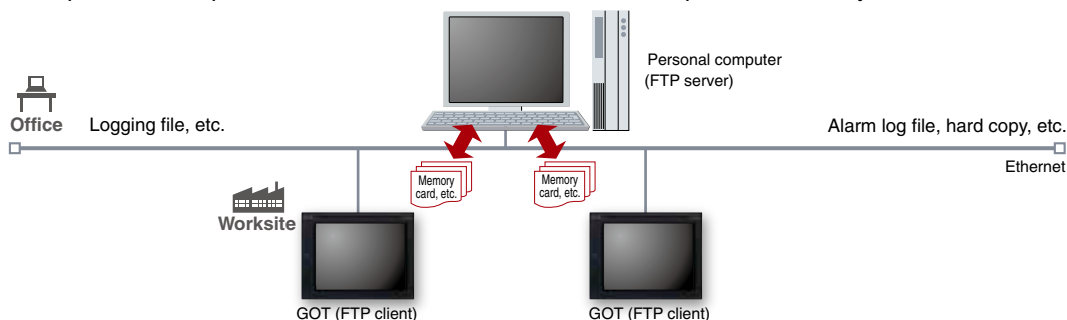

Mitsubishi Electric e-F@ctory presents the optimum products to connect production information and MES (Manufacturing Execution System) to improve productivity at clients' factories.

Send and retrieve files between a GOT and personal computer File Transfer (FTP Client) Function

GT27 **GT25** **GT23** **GT21**

By using a GOT, files (alarm logs, hard copies, etc.) stored on the GOT's memory card or USB memory can be sent to or received from a personal computer. File names and folder names can be specified indirectly.

Perfectly Complemented by SoftGOT

Execute GOT functions on your personal computer

SoftGOT

SoftGOT allows GOT functions to be executed on a personal computer. Similar to the GOT2000, a variety of industrial devices can be connected and monitored. The GT SoftGOT2000 Version1 software is included in GT Works3, but requires a separate license key to operate.

USB port license key

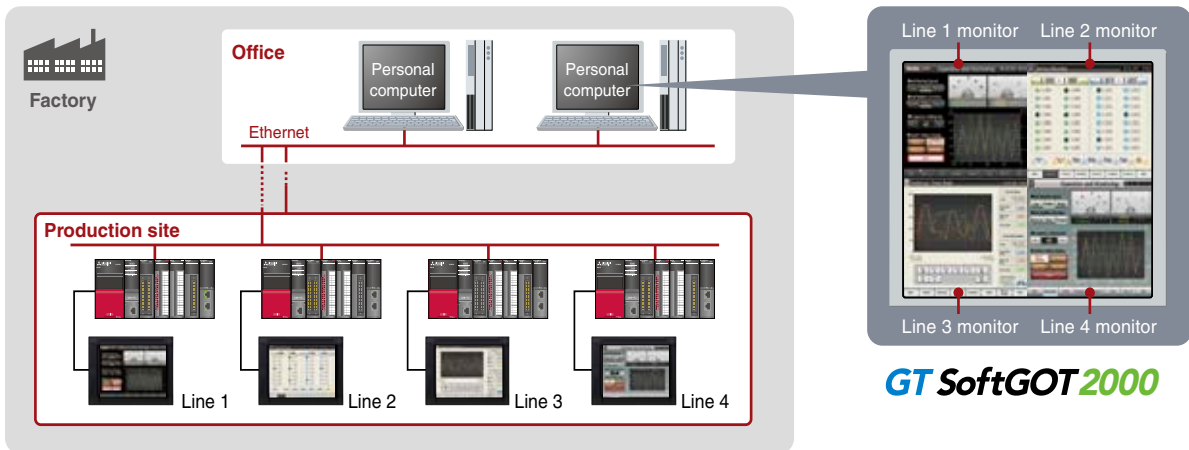

Monitor the production site from a remote location

Reduce downtime

Use GT SoftGOT2000 to monitor the production site from your office. You can collect information quickly when a problem occurs, taking necessary actions immediately.

Use GOT project data from the production site

The GOT project file running at your production site can be reused as the GT SoftGOT2000 project file, greatly reducing your design costs.

Engage with MELSEC process control

Simplify design and maintenance of a process control system by connecting PX Developer's monitor tools with GT SoftGOT2000. This process control monitoring system can be easily used in various process control applications.

PX Developer face plates, etc.

Monitor, operate or tune the loop control tags. (The display position can be specified.)

GT SoftGOT2000 touch switch / object

Click on touch switches and objects to open the various screens of the PX Developer monitor tool. (The display position can be specified.)

Security collaboration

The GT SoftGOT2000 security level is changed accordingly when the PX Developer monitor tool's mode is changed (engineer mode / operator mode / lock mode). Authority can be set for operations requiring security.

PX Developer monitor tool bar

Click on buttons to execute various operations such as starting GT SoftGOT2000 or switching base screens.

GT SoftGOT2000 base screen

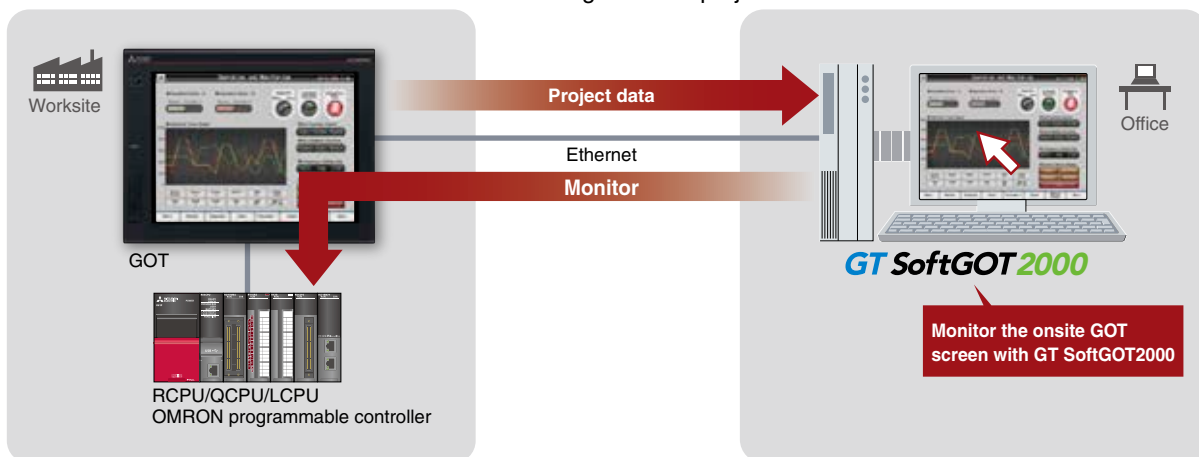

Turn your desktop into a graphic monitoring window with the full-screen and back-screen mode.

GOT2000 compatible HMI software
GT SoftGOT2000 Version 1

Remote monitoring with SoftGOT SoftGOT-GOT Link Function

GT27 GT25 GT23 GT21

GT SoftGOT2000 allows remote monitoring of devices connected on the worksite. This feature is available by connecting the GT SoftGOT2000 with the GOT via Ethernet and sharing the GOT project data.

Control multiple SoftGOT modules GT SoftGOT2000 Commander

GT27 GT25 GT23 GT21

GT SoftGOT2000 Commander

By using GT SoftGOT2000 Commander, multiple GT SoftGOT2000 modules using the SoftGOT-GOT link function can be efficiently managed, and the SoftGOT-GOT link function can be utilized easily.

The GOT2000 engages various industrial devices to support maintenance

iQ Platform for maximum return on investment

Minimize TCO, Seamless integration, Maximize productivity, Transparent communications: these are common items that highlight the benefits of the iQ Platform. Enhanced further with the arrival of the new iQ-R Series Programmable Automation Controller (PAC), reducing costs and improving productivity can be realized even easier.

The iQ Platform minimizes TCO at all phases of the automation life cycle by improving development times, enhancing productivity, reducing maintenance costs, and making information more easily accessible. Seamless integration is the core part of the iQ Platform, having a highly intelligent controller platform that caters to different aspects of control all on the same base rack, and maximizing productivity by taking advantage of the high-speed iQ-R system bus, which further reduces operation cycle times. Transparent communications are achieved by supporting the industry-leading gigabit Ethernet-based open network, CC-Link IE. Seamless data flow is realized no matter what point on the network, ensuring the free flow of production data across the manufacturing site.

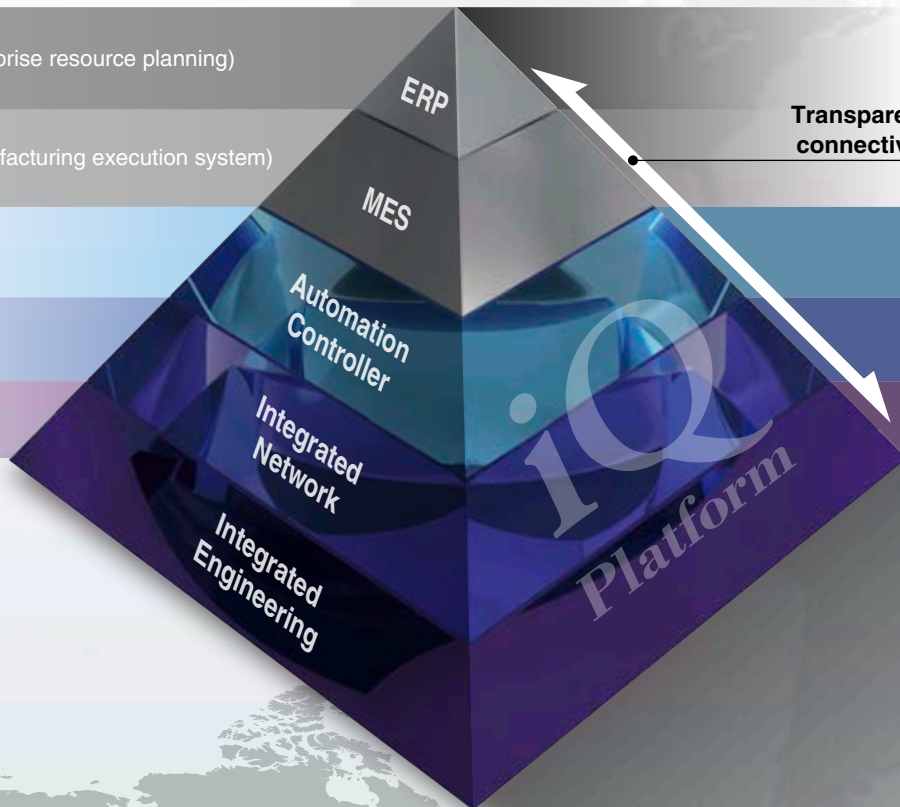

Taking these aspects and applying the new iQ-R Series controller into the mix, the iQ Platform raises processing capabilities to the next level for future intelligent manufacturing plants.

“Easier Operations!”

The GOT2000 engages various industrial devices to support maintenance

Programmable Controller
MELSEC
designed with automation in mind

Simplify ladder monitoring and editing!

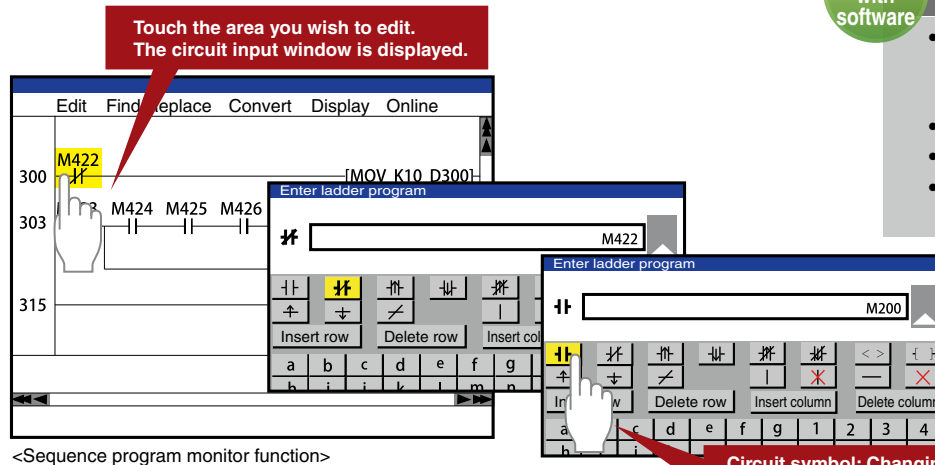

The MELSEC iQ-R Series, MELSEC-Q Series, and MELSEC-L Series sequence programs can be monitored and edited in ladder format using the sequence program monitor function.

In addition, the MELSEC-F Series sequence programs can be monitored in ladder format using the FX ladder monitor function.

Quickly perform maintenance operation on the GOT even if a personal computer is not readily available.

* The MELSEC iQ-R Series sequence program monitor function is coming soon.

Included with software

Provided sample screen data

- Programmable controller connection samples (RCPU **NEW**, QCPU, FXCPU **NEW**)
- CC-Link network monitors
- Device monitors
- Simple motion connection samples

<Sequence program monitor function>

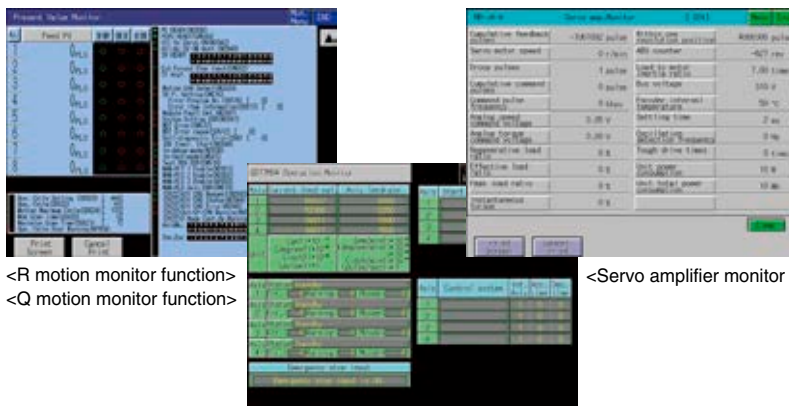

Circuit symbol: Changing from normally closed contact to normally open contact.
Device: Changing from M422 to M200

Easily monitor various controllers without creating screens!

General-purpose AC Servo
SERVO MOTOR AMPLIFIERS & MOTORS
MELSERVO

Dedicated screens for motion controllers, positioning modules/simple motion modules, and servo amplifiers are available. Screens do not need to be created for monitoring motion controllers or changing servo parameters, monitoring or changing buffer memory values of positioning modules/simple motion modules, or monitoring or parameter setting of servo amplifiers.

<R motion monitor function>
<Q motion monitor function>

<Servo amplifier monitor function>

CC-Link IE reduces the cost of system construction

The CC-Link IE network family is a high-speed 1 Gbps control level and field level Ethernet topology industrial open network.

GOTs can be connected to the industrial open network CC-Link IE!

GOTs, programmable controllers, and other controllers can be connected via the CC-Link IE Controller Network or the CC-Link IE Field Network. Dedicated sample screens are available for checking the network status of the CC-Link IE Controller Network and the CC-Link IE Field Network. Communication status can easily be checked with the line monitor, the host information, or the station information without using a personal computer.

CC-Link IE Control

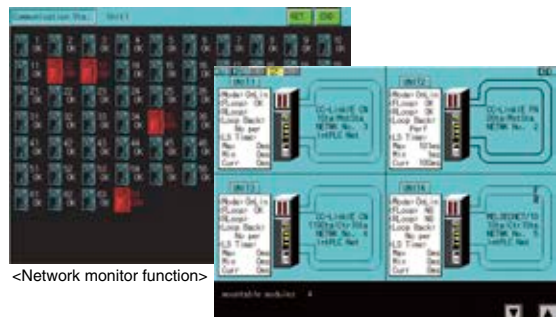

CC-Link IE Control is a high-reliability distributed control network designed to handle very large data communications (128 K word) over a high-speed (1Gbps) dual-loop optical cable topology.

- Communication unit on GOT: GT15-J71GP23-SX (normal station [optical loop])

CC-Link IE Field

CC-Link IE Field is a versatile gigabit Ethernet-based network integrating controller, I/O control, and motion control in a flexible topology supporting star, ring, and line configurations.

- Communication unit on GOT: GT15-J71GF13-T2 (intelligent device station)

“More Options!”

iQSS connects all types of sensors.

Sensors used on the manufacturing floor are becoming more advanced and complex.

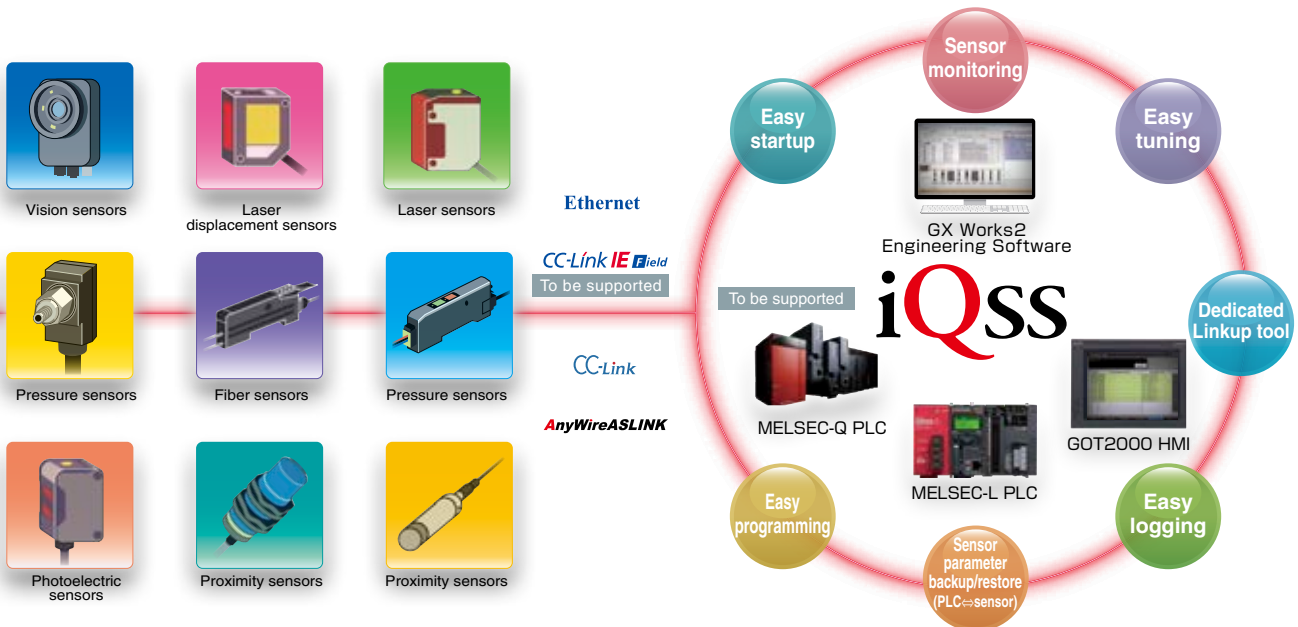

Managing your sensor configuration tools, and maintaining and starting up your equipment can be costly and hugely time consuming.

Through a collaboration with partner manufacturers, Mitsubishi Electric offers an **engineering tool** that enables intuitive configuration and maintenance of sensors.

This tool provides a solution that enhances the interaction between sensors and PLCs, HMIs and engineering softwares, which effectively reduces the customer's TCO*.

The solution is iQ Sensor Solution (iQSS).

Powerful support for sensor startup, operation, and maintenance!

Tools differ for each sensor and it's bothersome to monitor the sensors or backup the parameters...

With GOT2000, the parameters for the iQSS partner sensors can be easily backed up onto the SD card mounted on the LCPU, and the parameters can be restored in the sensor!

Each sensor status cannot be monitored in a batch, so it takes time to confirm...

With GOT2000, the iQSS partner sensors can be displayed on one screen, so you can improve the monitoring efficiency!

Multiple parameters cannot be changed in a batch with the parameter configuration tool, so it takes time to complete adjustments...

With GOT2000, the sensor parameters can be set easily via the network, so you can shorten the work time!

* For details about iQSS, please refer to the iQ Sensor Solution Catalog (L(NA)16029ENG).

* For details about sensors, please contact our partner manufacturers.

General specifications

Item	Specifications					
Operating ambient temperature *1	0 to 55°C *2					
Storage ambient temperature	-20 to 60°C					
Operating ambient humidity	10 to 90% RH, non-condensing					
Storage ambient humidity	10 to 90% RH, non-condensing					
Vibration resistance	Compliant with JIS B 3502 and IEC 61131-2	Under intermittent vibration	Frequency	Acceleration	Half-amplitude	10 times each in X, Y and Z directions
			5 to 8.4Hz	—	3.5mm	
		Under continuous vibration	5 to 8.4Hz	—	1.75mm	
			8.4 to 150Hz	9.8m/s ²	—	
Shock resistance	Compliant with JIS B 3502, IEC 61131-2 (147 m/s ² (15G), 3 times each in X, Y and Z directions)					
Operating atmosphere	No oily smoke, corrosive gas or combustible gas, less conductive dust, away from direct sunlight (the same in storage)					
Operating altitude *3	2000m or less					
Installation location	Inside control panel					
Overvoltage category *4	II or less					
Pollution level *5	2 or less					
Cooling method	Self-cooling					
Grounding	Type D grounding (100Ω or less). Connect to panel if unable to ground.					

*1 The operating ambient temperature includes the temperature inside the enclosure of the control panel to which the GOT is installed.

*2 The maximum operating ambient temperature should be 5°C lower than that shown in the table on the left when connecting to a multimedia unit (GT27-MMR-Z), MELSECNET/H communication unit (GT15-J71LP23-25 or GT15-J71BR13) or CC-Link communication unit (GT15-J61BT13).

*3 Do not operate or store the GOT unit in pressurized environments where the pressure exceeds 0m elevation atmospheric pressure, as this could result in abnormal operation. Do not pressurize inside the control panel for air purge cleaning. The pressure could raise the surface sheet, making the touch panel difficult to operate or causing the sheet to come off.

*4 Assuming that the device is connected at some point between a public power distribution network and local system equipment. Category II applies to devices that are supplied with power from fixed equipment. The surge withstand voltage is 2,500V for devices with ratings up to 300V.

*5 Index that indicates the level of foreign conductive matter in the operating environment of the device. Pollution level 2 denotes an environment contaminated only by non-conductive matter which may, under certain conditions, become temporarily conductive due to condensation.

Do not use or store the GOT under direct sun light or in an environment with excessively high temperature, dust, humidity or vibration.

For inquiries relating to the status of conforming to UL, cUL, and CE directives and shipping directives, please contact your local sales office.

Compatible software package	GT Designer3 Version 1.122C or later							

*1 On LCD panels, bright dots (permanently lit) and black dots (never lit) generally appear. Because the number of display elements that exist on an LCD panel is large, it is not possible to reduce appearance of the bright and black dots to zero. Individual differences in LCD panels may cause differences in color, uneven brightness and flickering. Note that these are characteristics of LCD panels and it does not mean the products are defective or damaged.

*2 Flickering may occur due to vibration or shock, or depending on the display colors.

*3 The life of using a stylus pen is 100,000. Use a stylus pen meeting the following specifications.
• Material: Polyacetal resin • Pen point radius: 0.8mm or more

*4 Using the GOT screen saver/backlight OFF functions prevents screen burn-in and extends backlight life.

*5 Pressing "PUSH" mark firmly and locking the USB environmentally protective cover makes it conform to IP67F. (The USB interface conforms to IP2X when the cover is open.) However, this does not guarantee protection in all users' environments. The unit may not be used in certain environments where it is subjected to splashing oil or chemicals for a long period of time or soaked in oil mist.

^{*3} Do not operate or store the GOT unit in pressurized environments where the pressure exceeds 0m elevation atmospheric pressure, as this could result in abnormal operation. Do not pressurize inside the control panel for air purge cleaning. The pressure could raise the surface sheet, making the touch panel difficult to operate or causing the sheet to come off.

^{*4} Assuming that the device is connected at some point between a public power distribution network and local system equipment. Category II applies to devices that are supplied with power from fixed equipment. The surge withstand voltage is 2,500V for devices with ratings up to 300V.

^{*5} Index that indicates the level of foreign conductive matter in the operating environment of the device. Pollution level 2 denotes an environment contaminated only by non-conductive matter which may, under certain conditions, become temporarily conductive due to condensation.

Do not use or store the GOT under direct sun light or in an environment with excessively high temperature, dust, humidity or vibration.

For inquiries relating to the status of conforming to UL, cUL, and CE directives and shipping directives, please contact your local sales office.

Weight (excl. mounting brackets)	2.4kg	2.1kg		1.5kg		
Compatible software package	GT Designer3 Version 1.122C or later					

*1 On LCD panels, bright dots (permanently lit) and black dots (never lit) generally appear. Because the number of display elements that exist on an LCD panel is large, it is not possible to reduce appearance of the bright and black dots to zero. Individual differences in LCD panels may cause differences in color, uneven brightness and flickering. Note that these are characteristics of LCD panels and it does not mean the products are defective or damaged.

*2 Flickering may occur due to vibration or shock, or depending on the display colors.

*3 The life of using a stylus pen is 100,000. Use a stylus pen meeting the following specifications.
• Material: Polyacetal resin • Pen point radius: 0.8mm or more

*4 Using the GOT screen saver/backlight OFF functions prevents screen burn-in and extends backlight life.

*5 When 2 points on the touch panel are pressed simultaneously, if a switch is located the middle of the 2 points then the switch will be activated. Therefore, avoid pressing 2 points on the touch panel simultaneously.

*6 Pressing "PUSH" mark firmly and locking the USB environmentally protective cover makes it conform to IP67F. (The USB interface conforms to IP2X when the cover is open.)
However, this does not guarantee protection in all users' environments. The unit may not be used in certain environments where it is subjected to splashing oil or chemicals for a long period of time or soaked in oil mist.

GT23

General specifications

Item	Specifications					
Operating ambient temperature *1	0 to 55°C					
Storage ambient temperature	-20 to 60°C					
Operating ambient humidity	10 to 90% RH, non-condensing *2					
Storage ambient humidity	10 to 90% RH, non-condensing *2					
Vibration resistance	Compliant with JIS B 3502 and IEC 61131-2	Under intermittent vibration	Frequency	Acceleration	Half-amplitude	Sweep count 10 times each in X, Y and Z directions
			5 to 8.4Hz	—	3.5mm	
		Under continuous vibration	5 to 8.4Hz	—	1.75mm	—
			8.4 to 150Hz	9.8m/s ²	—	
Shock resistance	Compliant with JIS B 3502, IEC 61131-2 (147 m/s ² (15G), 3 times each in X, Y and Z directions)					
Operating atmosphere	No oily smoke, corrosive gas or combustible gas, less conductive dust, away from direct sunlight (the same in storage)					
Operating altitude *3	2000m or less					
Installation location	Inside control panel					
Overvoltage category *4	II or less					
Pollution level *5	2 or less					
Cooling method	Self-cooling					
Grounding	Type D grounding (100Ω or less). Connect to panel if unable to ground.					

*1 The operating ambient temperature includes the temperature inside the enclosure of the control panel to which the GOT is installed.

*2 If ambient temperature exceeds 40°C, absolute humidity should not exceed 90% at 40°C.

*3 Do not operate or store the GOT unit in pressurized environments where the pressure exceeds 0m elevation atmospheric pressure, as this could result in abnormal operation. Do not pressurize inside the control panel for air purge cleaning. The pressure could raise the surface sheet, making the touch panel difficult to operate or causing the sheet to come off.

*4 Assuming that the device is connected at some point between a public power distribution network and local system equipment. Category II applies to devices that are supplied with power from fixed equipment. The surge withstand voltage is 2,500V for devices with ratings up to 300V.

*5 Index that indicates the level of foreign conductive matter in the operating environment of the device. Pollution level 2 denotes an environment contaminated only by non-conductive matter which may, under certain conditions, become temporarily conductive due to condensation.

Do not use or store the GOT under direct sun light or in an environment with excessively high temperature, dust, humidity or vibration.

For inquiries relating to the status of conforming to UL, cUL, and CE directives and shipping directives, please contact your local sales office.

Item	Description
Personal computer	Personal computer that Windows® runs on.
OS (English, Simplified Chinese, Traditional Chinese, Korean, or German version)	Microsoft® Windows® 8.1 (Enterprise, Pro) (64 bit/32 bit) *1 *2 *4 *5 *6 Microsoft® Windows® 8.1 (64 bit/32 bit) *1 *2 *4 *5 Microsoft® Windows® 8 (Enterprise, Pro) (64 bit/32 bit) *1 *2 *4 *5 *6 Microsoft® Windows® 8 (64 bit/32 bit) *1 *2 *4 *5 Microsoft® Windows® 7 (Ultimate, Enterprise, Professional) (64 bit/32 bit) *1 *2 *3 *4 Microsoft® Windows® 7 (Home Premium) (64 bit/32 bit) *1 *2 *4 Microsoft® Windows® 7 (Starter) (32 bit) *1 *2 Microsoft® Windows Vista® (Ultimate, Enterprise, Business, Home Premium, Home Basic) (32 bit) Service Pack1 or later *1 *2 Microsoft® Windows® XP (Professional, Home Edition) (32 bit) Service Pack3 or later *1 *2
CPU	1GHz or faster recommended
Memory	For Windows® 8.1 (64 bit), Windows® 8 (64 bit), Windows® 7 (64 bit): 2GB or more recommended For Windows® 8.1 (32 bit), Windows® 8 (32 bit), Windows® 7 (32 bit), Windows Vista® (32 bit): 1GB or more recommended For Windows® XP: 512MB or more recommended
Display	Resolution XGA (1024 × 768 dots) or higher
Hard disk space	For installation: 2GB or more recommended For execution: 512MB or more recommended
Display color	High Color (16 bits) or higher
Other hardware	Use the hardware compatible with the above OS. • For installation: mouse, keyboard, DVD-ROM drive • For execution: mouse, keyboard • For printing: printer Use the following hardware when required. • For simulation (only when outputting the buzzer sound): sound card, speaker
Compatible GOT	GOT2000 series, GOT1000 series
Applicable software version	GT Works3 Version1.122C or later

- *1 For installation, the administrator authority is required.
For Windows® 8.1, Windows® 8, Windows® 7 and Windows Vista®, the standard user or administrator account is required.
To interact GT Designer3 with other MELSOFT applications which are used under the administrator authority, use GT Designer3 under the administrator authority.
- *2 The following functions are not supported.
• Application start in Windows compatibility mode • Fast user switching • Change your desktop themes (fonts) • Remote desktop
• DPI setting other than the normal size (For Windows® XP and Windows Vista®)
• Setting the size of text and illustrations on the screen to any size other than [Small-100%] (For Windows® 8.1, Windows® 8, and Windows® 7)
- *3 Windows XP Mode is not supported.
*4 Windows Touch or Touch is not supported.
*5 Modern UI Style is not supported.
*6 Hyper-V is not supported.

GT SoftGOT2000 Version1 (English Version) operating environment

Item	Description
Personal computer	Personal computer that Windows® runs on. PC CPU module manufactured by CONTEC CO., LTD (PPC-852-21G, PPC-852-22F) *8
OS (English, Simplified Chinese, Traditional Chinese, Korean, or German version)	Microsoft® Windows® 8.1 (Enterprise, Pro) (64 bit/32 bit) *1 *2 *4 *5 *6 Microsoft® Windows® 8.1 (64 bit/32 bit) *1 *2 *4 *5 Microsoft® Windows® 8 (Enterprise, Pro) (64 bit/32 bit) *1 *2 *4 *5 *6 Microsoft® Windows® 8 (64 bit/32 bit) *1 *2 *4 *5 Microsoft® Windows® 7 (Ultimate, Enterprise, Professional) (64 bit/32 bit) *1 *2 *3 *4 Microsoft® Windows® 7 (Home Premium) (64 bit/32 bit) *1 *2 *4 Microsoft® Windows® 7 (Starter) (32 bit) *1 *2 Microsoft® Windows Vista® (Ultimate, Enterprise, Business, Home Premium, Home Basic) (32 bit) Service Pack1 or later *1 *2 Microsoft® Windows® XP (Professional, Home Edition) (32 bit) Service Pack3 or later *1 *2 Microsoft® Windows® XP Embedded (32 bit) *1 *2 *7
CPU	1GHz or more recommended
Memory	For Windows® 8.1 (64 bit), Windows® 8 (64 bit), Windows® 7 (64 bit): 2GB or more recommended For Windows® 8.1 (32 bit), Windows® 8 (32 bit), Windows® 7 (32 bit), Windows Vista® (32 bit): 1GB or more recommended For Windows® XP: 512MB or more recommended
Display	Resolution VGA (640 × 480 dots) or higher
Hard disk space *9	For installation: 2GB or more recommended For execution: 512MB or more recommended
Display color	High Color (16 bits) or higher
Hardware	GT27-SGTKEY-U (license key (for USB port))
Other software	The following software is required to create the project data. • GT Designer3 Version1.100E or later *10 The following software is required for interaction with PX Developer. • PX Developer Version1.40S or later • GT Designer3 Version1.105K or later *10 The following software is required to connect with GX Simulator. • GX Simulator Version5.00A or later The following software is required to connect with GX Simulator2. • GX Works2 Version1.12N or later The following software is required to connect with MT Simulator2. • MT Works2 Version 1.70Y or later
Other hardware	Use the hardware compatible with the above OS. • For installation: mouse, keyboard, DVD-ROM drive • For execution: mouse, keyboard • For printing: printer Prepare the following hardware if necessary. • For execution (only when outputting buzzer sound or others): sound function, speaker

- *1 Administrator authority is required for installing and using GT SoftGOT2000.
When interacting other applications, use the applications with the administrator authority.
- *2 The following functions are not supported.
• Application start in Windows compatibility mode • Fast user switching • Change your desktop themes (fonts) • Remote desktop
• DPI setting other than the normal size (For Windows® XP and Windows Vista®)
• Setting the size of text and illustrations on the screen to any size other than [Small-100%] (For Windows® 8.1, Windows® 8, and Windows® 7)
- *3 Windows XP Mode is not supported.
*4 Windows Touch or Touch is not supported.
*5 Modern UI Style is not supported.
*6 Hyper-V is not supported.
*7 For using the PPC-852-22F, GT SoftGOT2000 can be used on the PPC-852-22F with the OS preinstalled only.
*8 Refer to the manual of the PC CPU module to be used.
*9 When using GT Designer3 or PX Developer besides GT SoftGOT2000, additional free space is required.
For the available space required when using GT Designer3, please refer to the GT Works3 operating environment.
For the available space required when using monitor tool functions of PX Developer, please refer to the following manual.
⇒PX Developer Version □ Operating Manual (Monitor Tool)
When using a user-created application, free space is required separately.
- *10 Use GT Designer3 included in GT Works3 that contains GT SoftGOT2000.

For details of functions, supported controllers, and connection types, please refer to the GOT2000 Series Manual or Help.

*1 Necessary units when using GT27, GT25, GT23, or GT21 are shown. Parenthesized devices will be required depending on conditions of use.

*2 Data is output to the printer that is recognized by the personal computer.

*3 CSV files are saved in the virtual drive of the personal computer so that it is recommended to output the files to printers.

*4 Only the GOTs with SVGA or higher resolution are supported.

*5 The following screens are displayed horizontally:

Utility screen, monitor and data management screens that are displayed from the utility screen (sequence program monitor, etc.), video camera images in the multimedia and video display functions

Remote personal computer operation function (Ethernet) cannot be used.

For the details of other GOT operations when placed vertically, please refer to the related manuals or the Help.

CC-Link IE Field Network Ethernet adapter module		NZ22GF-ETB																										

- *1 CC-Link (via G4): connect to the CC-Link system via AJ65BT-G4-S3 or AJ65BT-R2N.
- *2 When using bus connection, follow the precautions below.
 - When multiple GOTs are connected, the GOT2000 series cannot be connected with the GOT800 series or A77GOT.
 - Bus connection cannot be established with QCPU (A mode).
 - The number of connectable GOTs is restricted according to the CPU type and the number of intelligent function modules.
 - The GOT2000 series, GOT1000 series, and GOT-A900 series can be connected together in a system. Please refer to the following Technical Bulletins.
 - *"Precautions when Replacing GOT1000 Series with GOT2000 Series" No. GOT-A-0061
 - *"Precautions when Replacing GOT-A900 Series with GOT2000 Series" No. GOT-A-0062
- *3 Includes the case on the MELSECNET/H network system in the MNET/I/O mode. The GOT cannot be connected to the remote I/O network.
- *4 When the number of connected slave GOTs and the device points of each GOT increase, the device update cycle on the screen may get slower. (Please consider 250 points as a guide of 1 GOT, and 750 points as a guide of the total points.)
- *5 Only supported by GT2103-PMBD.
- *6 Access via the serial port (RS-232) of QCPU in the multiple CPU system since the CPU has no serial port.
- *7 Use a CC-Link IE Controller Network module with the upper five digits of the serial No. later than 09042.
- *8 Use a CPU with the upper five digits of the serial No. later than 12012.
- *9 When using the bus extension connector box (A9GT-QCNB), attach it to the extension base unit. (Connecting it to the main base unit is not allowed.)
- *10 Use a CPU and a CC-Link IE Controller Network module with the upper five digits of the serial No. later than 09042.
- *11 Use a CPU of function version B or later or a CC-Link IE Controller Network module of function version D or later.
- *12 In the multiple CPU system, use a CPU or a MELSECNET/H network module of function version B or later.
- *13 GT2103-PMBD cannot be connected to Q00J, Q00, or Q01CPU.
- *14 When in multiple CPU system configuration, use a CPU of function version B or later.
- *15 Use a CPU with the upper five digits of the serial No. later than 09012 or a CC-Link IE Controller Network module with the upper five digits of the serial No. later than 09011. When the total number of stations in a network is 65 or more, use a CC-Link IE Controller Network module with the upper five digits of the serial No. 09042 or later.
- *16 In the Ethernet, MELSECNET/H, or MELSECNET/I/O connection, to monitor a QCPU in the multiple CPU system, always use a network module of function version B or later.
- *17 Use a CC-Link IE Controller Network module of function version D or later.
- *18 The supported version of the main units varies depending on the Ethernet module to be used as shown below.
- *19 Use a CPU with the upper five digits of the serial No. later than 10042 or a CC-Link IE Controller Network module of function version D or later.
- *20 Use a CPU with the upper five digits of the serial No. later than 10032 or a CC-Link IE Controller Network module of function version D or later.
- *21 Use a CPU with the upper five digits of the serial No. later than 13042.
- *22 When using a LJ71E71-100, use a CPU with the upper five digits of the serial No. later than 14112.
- *23 Use a LJ71E71-100 since the CPU has no built-in Ethernet port.
- *24 Use a CPU with the upper five digits of the serial No. later than 13012.
- *25 The adapter L6ADP-R2 or L6ADP-R4 is required. When using the L6ADP-R4 adapter, use a CPU with the upper five digits of the serial No. later than 15102.
- *26 Use the serial port of a serial communication module controlled by another CPU in the multiple CPU system.
- *27 Use a CPU with the upper five digits of the serial No. later than 12042.
- *28 GT2103-PMBD cannot be connected to the MELSEC-WS series.
- *29 In Ethernet connection, serial communication connection, CC-Link (intelligent device station) connection, CC-Link (via G4) connection, MELSECNET/H connection, or MELSECNET/I/O connection, use main modules with the following product numbers.
 - Q172CPU: Product number N***** or later
 - Q173CPU: Product number M***** or later
- *30 When using SV13, SV22, or SV43, use the motion controller CPU on which any of the following main OS software version is installed.
 - Ethernet connection, serial communication connection, CC-Link (intelligent device station) connection, CC-Link (via G4) connection, MELSECNET/H connection, MELSECNET/I/O connection
 - SW6RN-SV13Q: 00H or later
 - SW6RN-SV22Q: 00H or later
 - SW5RN-SV43Q: 00B or later
 - Direct CPU connection, bus connection, multi-drop connection
 - SW6RN-SV13Q: 00E or later
 - SW6RN-SV22Q: 00E or later
 - SW5RN-SV43Q: 00B or later
- *31 In direct CPU connection, bus connection, or multi-drop connection, use main modules with the following product numbers.
 - Q172CPU: Product number K***** or later
 - Q173CPU: Product number J***** or later
- *32 PERIPHERAL I/F can be used.
- *33 When using SV43, use the CPU on which any of the following main OS software version is installed.
 - SW7DC-SV43Q: 00F or later
- *34 Only the PLC CPU area (CPU No.1) can be monitored.

Ethernet module	CPU		
	FX3U(C)	FX3G(C)	FX3S
FX3U-ENET-L	Ver. 2.21 or later	FX3U-ENET-L is not supported.	
FX3U-ENET-ADP	Ver. 3.10 or later	Ver. 2.00 or later	Ver. 1.20 or later

GOT2000 connectable model list

■ Modules usable when connected with Mitsubishi PLCs/motion controllers

● Ethernet connection

CPU series	Ethernet module
MELSEC iQ-R series Motion controller (MELSEC iQ-R series)	RJ71EN71
MELSEC-Q series (Q mode) MELSEC-QS series Motion controller (MELSEC-Q series)	QJ71E71-100 QJ71E71-B5 QJ71E71-B2 QJ71E71
MELSEC-L series	LJ71E71-100*1
MELSEC-F series	FX3U-ENET-L*2 FX3U-ENET-ADP*2

*1 Use a CPU with the upper five digits of the serial No. later than 14112.

*2 Options for extension controller may be required depending on the connected CPU.

● Serial communication connection

CPU series	Serial communication module ^{*)}		
	Model name	CH1	CH2
MELSEC iQ-R series Motion controller (MELSEC iQ-R series)	RJ71C24	RS-232	RS-422/485
	RJ71C24-R2	RS-232	RS-232
	RJ71C24-R4	RS-422/485	RS-422/485
MELSEC-Q series (Q mode) Motion controller (MELSEC-Q series) MELSECNET/H remote I/O station	QJ71C24*2	RS-232	RS-422/485
	QJ71C24-R2*2	RS-232	RS-232
	QJ71C24N	RS-232	RS-422/485
	QJ71C24N-R2	RS-232	RS-232
	QJ71C24N-R4	RS-422/485	RS-422/485
	QJ71CMO*3	Modular connector	RS-232
	QJ71CMON*3	Modular connector	RS-232
MELSEC-L series CC-Link IE Field Network head module	LJ71C24	RS-232	RS-422/485
	LJ71C24-R2	RS-232	RS-232

*1 Communication cannot be performed with RS-485.

*2 Either CH1 or CH2 can be used for the function version A.
Both CH1 and CH2 can be used together for the function version B or later.

*3 Only CH2 can be connected.

● CC-Link IE Controller Network connection

CPU series	CC-Link IE Controller Network module
MELSEC iQ-R series Motion controller (MELSEC iQ-R series)	RJ71GP21-SX
MELSEC-Q series (Q mode) MELSEC-QS series C Controller module Motion controller (MELSEC-Q series)	QJ71GP21-SX*1 QJ71GP21S-SX*1

*1 When the CC-Link IE Controller Network is in the extended mode, use a module with the upper five digits of the serial No. 12052 or later.

● CC-Link IE Field Network connection

CPU series	CC-Link IE Field Network module
MELSEC iQ-R series Motion controller (MELSEC iQ-R series)	RJ71GF11-T2 RJ71EN71
MELSEC-Q series (Q mode) C Controller module	QD77GF16 QJ71GF11-T2
MELSEC-QS series	QS0J71GF11-T2
MELSEC-L series	LJ71GF11-T2

● CC-Link (intelligent device station) connection

CPU series	CC-Link module
MELSEC iQ-R series Motion controller (MELSEC iQ-R series)	RJ61BT11
MELSEC-Q series (Q mode) C Controller module Motion controller (MELSEC-Q series)	QJ61BT11 QJ61BT11N
MELSEC-L series	LJ61BT11

● CC-Link (via G4) connection

CPU series	CC-Link module	Peripheral module
MELSEC-Q series (Q mode) C Controller module Motion controller (MELSEC-Q series)	QJ61BT11 QJ61BT11N	AJ65BT-G4-S3 AJ65BT-R2N
MELSEC-L series	LJ61BT11	

For the details of the connection configuration, please refer to the GOT2000 Series Connection Manual.

- *1 Select an appropriate GT21 model depending on the connection type. For the details of applicable GOT models for each connection type, please refer to page 62.
- *2 GT21 cannot be connected.
- *3 Connectable only when a single communication unit is used in a single CPU system.
- *4 Either RS-422 or RS-232 can be selected.
- *5 Only CJ2M-CPU1□ can be connected.
- *6 Connection is not available with the E type CP1E.
- *7 For CP1E (N type) CPU modules with 20 or less I/O points, only the direct CPU connection is available.
- *8 The CQM1-CPU11 is unable to communicate with GOT since the CQM1-CPU11 has no RS-232 interface.
- *9 SYSMAC CVM1/CV can be used with a CPU version 1 or later.
- *10 An RS-232/RS-422 interface converter (TXU-2051) is required.

- *11 Connection to DH485 network is available via adapter (1770-KF3).
- *12 DH485 connection can be used with a CPU in the series C or later. (DH485 protocol is not supported by a CPU in the series B or earlier.)
- *13 One-to-one connection is supported by a CPU in the series D or later. (DF1 half duplex is not supported by a CPU in the series C or earlier.)
- *14 Only MODBUS[®]/TCP connection is supported. Use a MODBUS/TCP communication driver.
- *15 EtherNet/IP (PCCS protocol) is supported.
- *16 Use EtherNet/IP Tag.
- *17 Only OP communication can be used in Ethernet connection of the S7-200 series and the S7-1200 series.
- *18 Only MODBUS[®]/RTU connection is supported. Use MODBUS/RTU communication driver.

Modules usable when connected with third party serial communication connection, Ethernet connection, Ethernet/IP connection modules

*1 GT27/GT25: Use GT15-RS4-TE or FA-LTBGT2R4CBL□.

The RS-422/485 interface and GT15-RS4-9S cannot be used.

GT23: Use FA-LTBGT2R4CBL□. The RS-422/485 interface cannot be used.

*2 If the temperature controller/indicating controller has an RS-485 interface, use an RS-232/RS-485 converter for the manufacturer.

*3 If the temperature controller/indicating controller has an RS-422 interface, use an RS-232/RS-422 converter for the manufacturer.

*4 Only the indicating controller equipped with RS-232 communication function can be connected.

*5 Use a communication extension module (Z-COM).

*6 Use a communication extension module (Z-COM) depending on the system configuration of the temperature controller.

*7 Select a model that supports the MODBUS[®] communication function.

*8 Connectable with the products manufactured in October 2007 or later (Indicating controllers with the serial numbers 07Axxxxxx, 07Kxxxxxx, and 07Xxxxxxx or later).

*9 Only MODBUS[®]/RTU connection is supported. Use MODBUS/RTU communication driver.

*10 Only MODBUS[®]/TCP connection is supported. Use a MODBUS/TCP communication driver.

*11 Use a serial communication unit SCU.

MODBUS[®] device

Communication with MODBUS[®] compatible devices is possible by using the MODBUS/RTU communication driver or the MODBUS/TCP communication driver. (GT21 supports MODBUS[®]/RTU connection only.)

For the MODBUS[®] devices, which have been checked for operation, please refer to the Technical Bulletin "List of Valid Devices Applicable for GOT2000 Series MODBUS[®] Connection" No. GOT-A-0070.

Computer

By connecting a PC, microcomputer board, PLC, etc. to a GOT, the data can be written to or read from virtual devices of the GOT.

■ Applicable GOT models for each connection type

The GOT to be used differs depending on the connection type.

Model	Connection type	Applicable model
GT27/GT25	RS-232	All models (Built-in interfaces of the GOT can be used.)
	RS-422/485	
	Ethernet	
	Other than above	
GT23	RS-232	All models (Built-in interfaces of the GOT can be used.)
	RS-422/485	
	Ethernet	
GT21	RS-232	GT2103-PMBDS
	RS-422/485	GT2103-PMBD GT2103-PMBDS
	Ethernet	GT2103-PMBD
	CC-Link	GT2103-PMBD GT2103-PMBDS

For the details of the connection configuration, please refer to the GOT2000 Series Connection Manual.

CC-Link IE Field Network Ethernet adapter module	NZ2GF-ETB ^{*)24}	○	×	×	×	×	×	×	×	

- *1 Includes the connection where MELSECNET/H is used in the MELSECNET/10 mode. Connection to the remote I/O network is not allowed.
- *2 Use a CC-Link IE Controller Network module with the upper five digits of the serial No. later than 09042.
- *3 Use a CPU and a CC-Link IE Controller Network module with the upper five digits of the serial No. later than 09042.
- *4 Use a CPU with the upper five digits of the serial No. later than 12012.
- *5 Use a CPU of function version B or later or a CC-Link IE Controller Network module of function version D or later.
- *6 For the multiple CPU system configuration, use a CPU of function version B or later.
- *7 Use a CPU with the upper five digits of the serial No. later than 09012 or a CC-Link IE Controller Network module with the upper five digits of the serial No. later than 09011.
- *8 When the total number of stations in a network is 65 or more, use a CC-Link IE Controller Network module with the upper five digits of the serial No. 09042 or later.
- *9 Use a CC-Link IE Controller Network module of function version D or later.
- *10 Use a CPU with the upper five digits of the serial No. later than 10042 or a CC-Link IE Controller Network module of function version D or later.
- *11 Use a MELSECNET/H interface board driver (SW0DNC-MNETH-B) with the version K or later.
- *12 Only the host station and the host station settings can be accessed. (Access to other stations or other PLC CPUs are not allowed.)
- *13 Use a CPU with the upper five digits of the serial No. later than 10032 or a CC-Link IE Controller Network module of function version D or later.

- *13 Use a CPU with the upper five digits of the serial No. later than 13042.
- *14 When using a LJ71E71-100, use a CPU with the upper five digits of the serial No. later than 14112.
- *15 Use a LJ71E71-100 since L02SCPU and L02SCPU-P have no built-in Ethernet port.
- *16 Use a CPU with the upper five digits of the serial No. later than 13012.
- *17 The adapter L6ADP-R2 is required.
- *18 Access via the serial port (RS-232) of QCPU in the multiple CPU system since QnUDEHCPU, Q12DCCPU, Q24DHCCPU-V/VG/LS, Q172DS/173DSCPU, Q173NCCPU, and Q172DRCPU have no serial port.
- *19 Use the serial port of a serial communication module controlled by another CPU on the multiple CPU system.
- *20 Use a CPU with the upper five digits of the serial No. later than 12042.
- *21 When using SV43, use the motion controller CPU on which any of the following main OS software version is installed.
SW7DC-SV43Q 3.00F or later
- *22 Only the PLC CPU area (CPU No.1) can be connected. The PERIPHERAL I/F cannot be used.
- *23 In the Ethernet, MELSECNET/H, or MELSECNET/10 connection, to monitor a QCPU in the multiple CPU system, always use a network module of function version B or later.
- *24 Devices of other stations can be monitored via NZ2GF-ETB. (Devices of the host station cannot be monitored.)

Modules usable when connected with Mitsubishi PLCs

Ethernet connection

PLC Ethernet module

CPU series	Ethernet module
MELSEC iQ-R series	RJ71EN71

C Controller module	QJ71LP21-25 QJ71LP21S-25	

*1 Use function version B or later of the MELSECNET/H network module and CPU.

*2 For the connection with motion controller CPUs (Q series), only the PLC CPU area (CPU No.1) of the Q170MCPUCPU/Q170MSCPU is available.

● **Network interface board (PC side)**

PLC type	Network interface board
MELSECNET/H	Q80BD-J71LP21-25 (optical loop) Q80BD-J71LP21S-25 (optical loop, with external power supply function) Q80BD-J71LP21G (optical loop) Q80BD-J71BR11 (coaxial loop) Q81BD-J71LP21-25 (optical loop)

Mitsubishi robot controller

Controller name	Ethernet connection	Connection type							
		Direct CPU connection		Serial communication connection	CC-Link IE Controller Network connection	CC-Link IE Field Network connection	MELSECNET/H connection	MELSECNET/10 connection ^(*)	
RS-232	USB								
F series	CR750-Q(Q172DRCPU)	○*2	○*3	○	○	○*4	○	○	○
	CR751-Q(Q172DRCPU)	○	×	×	×	×	×	×	×
	CR750-D CR751-D	○	×	×	×	×	×	×	×
SQ series	CRnQ-700 (Q172DRCPU)	○*2	○*3	○	○	○*4	○	○	○
SD series	CRnD-700	○	×	×	×	×	×	×	×

*1 Only supports the case where MELSECNET/H is used in the MELSECNET/10 mode. Connection to the remote I/O network is not allowed.

*2 The Display I/F of CRnQ-700, CR750/751-Q cannot be used. Ethernet connections can be established only via the Ethernet module (QJ71E71) or the built-in Ethernet port in the multiple CPU system (QnUDE).

*3 Access via the serial port (RS-232) of QCPU in the multiple CPU system since CRnQ-700 and CR750/751-Q have no serial port.

*4 Use a CC-Link IE Controller Network module with the upper five digits of the serial No. later than 09042.

*1 Only C.J2M-CPU11□ can be connected.

*2 Connection to the CQM1-CPU11 is not allowed since the CQM1-CPU11 has no RS-232 interface.

*3 Connection is supported only when a single communication unit is used in a single CPU system configuration.

*4 SYSMAC CVM1/CV can be used with a CPU version 1 or later.

*5 Only OP communication can be used in Ethernet connection of the S7-200 series and the S7-1200 series.

Modules usable when connected with third party serial communication connection or Ethernet connection modules

*1 To connect MP2200, MP2300, or MP2300S using Ethernet connection or RS-232 connection, use a CPU of software version 2.60 or later.

MODBUS® device

Communication with MODBUS® compatible devices is possible.

For the MODBUS® devices, which have been checked for operation, please refer to the Technical Bulletin "List of Valid Devices Applicable for GOT2000 Series MODBUS® Connection" No. GOT-A-0070.

For the details of the connection configuration, please refer to the GOT2000 Series Connection Manual.

Compatibility with Conventional Products

Compatibility with GOT1000 series

- The following shows the overview of replacing from the GOT1000 series. For the details, please refer to the following Technical Bulletins.
- Technical Bulletin "Precautions when Replacing GOT1000 Series with GOT2000 Series" No.GOT-A-0061 (GT16, GT15)

Panel cutting dimensions

The panel cutting dimensions are the same if the GOT1000 series and the GOT2000 series have the same screen size. Changing mounting holes is not required.

GOT1000 series		GOT2000 series
15"	GT1695, GT1595*	Same dimensions as GT2715.
12.1"	GT1685, GT1585	Same dimensions as GT2712, GT2512.
10.4"	GT167□, GT157□	Same dimensions as GT2710, GT2510.
8.4"	GT1665, GT156□	Same dimensions as GT2708, GT2508.
3.7"	GT1020	Same dimensions as GT2103. (Although the screen size differs, panel cutting dimensions are the same.)

* Discontinued product.

Communication units, option units

Communication units and option units for the GT16, GT15, or GT10 can be used with the GOT2000 series as-is except for the following devices.

GOT1000 series		GOT2000 series	Remarks	
Communication unit	RS-422 conversion unit	GT15-RS2T4-9P GT15-RS2T4-25P	Use the built-in RS-422/485 interface or GT15-RS4-9S (serial communication unit)	
	MELSECNET/10 communication unit	GT15-75J71LP23-Z*	GT15-J71LP23-25 (MELSECNET/H connection unit)	
		GT15-75J71BR13-Z*	GT15-J71BR13 (MELSECNET/H connection unit)	
	CC-Link communication unit (CC-Link (ID) Ver.1)	GT15-75J61BT13-Z*	GT15-J61BT13 (CC-Link communication unit)	
	Connection conversion adapter	GT10-9PT5S	-	The adapter is not required on GT2103 because Europe terminal blocks are used.
Ethernet communication unit	GT15-J71E71-100	Use the built-in Ethernet interface		
Option unit	Multimedia unit	GT16M-MMR	GT27-MMR-Z (multimedia unit)	A CF card is used with the unit.
	Video input unit	GT16M-V4	GT27-V4-Z (video input unit)	
		GT15V-75V4		
	RGB input unit	GT16M-R2	GT27-R2-Z (RGB input unit)	
		GT15V-75R1		
	Video/RGB input unit	GT16M-V4R1	GT27-V4R1-Z (video/RGB input unit)	
		GT15V-75V4R1		
	RGB output unit	GT16M-ROUT	GT27-ROUT-Z (RGB output unit)	
		GT15V-75ROUT		
CF card unit	GT15-CFCD	-	A CF card cannot be used with the GOT2000 series. Use an SD card with the built-in SD card slot.	
CF card extension unit	GT15-CFEX-C08SET	-		

* Discontinued product.

Cables

<GT16, GT15>

- For the details of using the bus connection cables, RS-232 cables, RS-422 cables, or other cables for GT16 or GT15 with GT27 or GT25, please refer to the Technical Bulletin No. GOT-A-0061.

<GT10>

- The cables being used with GT1020 can be used as-is with GT2103 (serial type).

Project data

The project data of the GOT1000 series can be used as-is by converting the GOT Type using GT Designer3 Version 1.100E or later*.

* The supported version differs depending on the GOT2000 models.

Compatibility with GOT900 series

For the details, please refer to the following Technical Bulletins.

- Technical Bulletin "Precautions when Replacing GOT-A900 Series with GOT2000 Series" No.GOT-A-0062

Compatibility with GOT800, A77GOT, or A64GOT series

For the details, please refer to the following Technical Bulletins.

- Technical Bulletin "Precautions when Replacing A800, A77GOT, A64GOT Series with GOT2000 Series" No.GOT-A-0063

For the Technical Bulletins, please contact your local sales office.

*1 The white model does not have the front USB interface. It is recommended to use the products that the USB environmental protection cover area is closed.

*2 When using the product with the USB environmental protection cover area closed, the front USB interface cannot be used.

*3 Check if the protective cover for oil can be used in the actual environment before use. When using the cover, the front USB interface and human sensor cannot be used.

*4 Including the GP250□ and GP260□ manufactured by Digital Electronics Corporation.

Cables

Product name		Model name	Cable length	Recommended product [※]	Specifications	Applicable model					
						GT27	GT25	GT23	GT21		
QCPU bus connection cable	QCPU connection cable GOT-to-GOT connection cable	GT15-QC06B	0.6m	○	Between QCPU and GOT Between GOT and GOT	●	●	-	-		
		GT15-QC12B	1.2m								
		GT15-QC30B	3m								
		GT15-QC50B	5m								
		GT15-QC100B	10m								
	QCPU connection cable GOT-to-GOT connection cable (for long distance connection)	GT15-QC150BS	15m	○	Between QCPU and GOT (for long-distance connection) A9GT-QCNC required Between GOT and GOT (for long-distance connection)	●	●	-	-		
		GT15-QC200BS	20m								
		GT15-QC250BS	25m								
		GT15-QC300BS	30m								
		GT15-QC350BS	35m								
Bus extension connector box		A9GT-QCNCB	-	-	Attach to PLC main base when using QCPU and GOT long-distance connection	●	●	-	-		
Ferrite core set for Q bus cable		GT15-QFC	-	-	Attach to GOT-A900 bus connection cable when replacing existing GOT-A900 with GOT2000 (two-pack)	●	●	-	-		
RS-485 terminal block conversion unit		FA-LTBGT2R4CBL05	0.5m	○	RS-485 terminal block conversion unit With cable for connection between RS-422/485 (connector) of GOT2000 and RS-485 terminal block conversion unit	●	●	-	-		
		FA-LTBGT2R4CBL10	1m								
		FA-LTBGT2R4CBL20	2m			●	●	-	-		
RS-422 conversion cable		FA-CNV2402CBL	0.2m	○	Between QCPU/L02SCPU(-P) and RS-422 cable (GT01-C□R4-25P, GT10-C□R4-25P, GT21-C□R4-25P5) Between L6ADP-R2 and RS-422 cable (GT01-C□R4-25P, GT10-C□R4-25P, GT21-C□R4-25P5) [MINI-DIN6 pin and D-sub 25-pin]	●	●	●	●		
		FA-CNV2405CBL	0.5m

GT10-C300R4-8PC	30m										
RS-422 connector conversion cable		GT10-C02H-9SC	0.2m	-	Between PLC and GOT [Convert D-sub 9-pin to loose wire (connector terminal block 9-pin)]			-	-	-	● ^{※3}
RS-232 cable	Q/LCPU direct connection cable	GT01-C30R2-6P	3m	-	Between Q/LCPU and GOT Between L6ADP-R2 and GOT/personal computer (GT SoftGOT2000) [Between MINI-DIN 6-pin and D-sub 9-pin]			●	●	●	● ^{※3}
	FXCPU communication expansion board connection cable FXCPU communication special adapter connection cable	GT01-C30R2-9S	3m	-	Between FXCPU communication expansion board and GOT/personal computer (GT SoftGOT2000) Between FXCPU communication special adapter and GOT/personal computer (GT SoftGOT2000) [Between D-sub 9-pin and D-sub 9-pin]			●	●	●	● ^{※3}
		GT01-C30R2-25P	3m	-	Between FXCPU communication special adapter and GOT/personal computer (GT SoftGOT2000) [Between D-sub 25-pin connector and D-sub 9-pin]			●	●	●	● ^{※3}
	Computer link connection cable CC-Link(G4) connection cable	GT09-C30R2-9P	3m	○	Between serial communication module and GOT Between computer link module and GOT Between peripheral connection module (AJ65BT-R2N) and GOT [Between D-sub 9-pin and D-sub 9-pin]	●	●	●	● ^{※3}		
	Computer link connection cable	GT09-C30R2-25P	3m	○	Between serial communication module and GOT Between computer link module and GOT [Between D-sub 25-pin and D-sub 9-pin]	●	●	●	● ^{※3}		
	RS-232 connector conversion cable	GT10-C02H-6PT9P	0.2m	-	Between PLC and GOT Between multiple connection GOT and GOT Between barcode reader, RFID, serial printer and GOT [Convert D-sub 9-pin to MINI-DIN 6-pin]	-	-	-	● ^{※3}		
	Data transfer cable	GT01-C30R2-6P	3m	-	Between GOT and personal computer * Can be used for the FA transparent function only. Cannot be used for the screen/OS data transfer. [Between MINI-DIN 6-pin and D-sub 9-pin]	-	-	-	● ^{※3}		
External I/O unit connection conversion cable		GT15-C03HTB	0.3m	○	Between external I/O unit (GT15-DIO) and GOT-A900 external I/O interface unit connection cable (A8GT-C05TK, A8GT-C30TB, user-fabricated cable)	●	●	-	-		
Analog RGB cable		GT15-C50VG	5m	○	Between external monitor, personal computer and vision sensor and GOT	●	-	-	-		
USB cable	Data transfer cable Printer connection cable	GT09-C30USB-5P	3m	○	Between personal computer (screen design software) and GOT Between personal computer (GT SoftGOT2000) and QnU/L/FXCPU Between PictBridge-compatible printer and printer unit (GT15-PRN) [Between USB-A and USB Mini-B]	●	●	●	● ^{※6}		
		Panel-mounted USB Port Extension		GT10-C10EXUSB-5S	1m	-	For extending a USB port of GOT into the control panel.	-	-	-	●

※1 FA-LTBGT2R4CBL□, FA-CNV240□CBL are developed by Mitsubishi Electric Engineering Company Limited and sold through your local sales office.
The other products listed are developed by Mitsubishi Electric Systems & Service Co., LTD. and sold through your local sales office.
※2 This cable can be used for GT2103-PMBD only.
※3 This cable can be used for GT2103-PMBDS only.
※4 This cable can be used if connected with the RS-422 connector conversion cable GT10-C02H-9SC.
※5 This cable can be used if connected with the RS-232 connector conversion cable GT10-C02H-6PT9P.
※6 This cable cannot be used for printer connection.

Cables for non-Mitsubishi FA products

RS-232 and RS-422 cables are available from every manufacturer. For more details, please see the GOT2000 Series Connection Manual.

Manuals

Manual name	Manual number

GT Designer3 (GOT2000) Screen Design Manual	SH-081220ENG

Warranty

Please confirm the following product warranty details before using this product.

Gratis Warranty Term and Gratis Warranty Range

If any faults or defects (hereinafter "Failure") found to be the responsibility of Mitsubishi occurs during use of the product within the gratis warranty term, the product shall be repaired at no cost via the sales representative or Mitsubishi Service Company.

However, if repairs are required onsite at domestic or overseas location, expenses to send an engineer will be solely at the customer's discretion. Mitsubishi shall not be held responsible for any re-commissioning, maintenance, or testing on-site that involves replacement of the failed module.

■Gratis Warranty Term

The gratis warranty term of the product shall be for thirty-six (36) months after the date of purchase or delivery to a designated place.

Note that after manufacture and shipment from Mitsubishi, the maximum distribution period shall be six (6) months, and the longest gratis warranty term after manufacturing shall be forty-two (42) months. The gratis warranty term of repair parts shall not exceed the gratis warranty term before repairs.

■Gratis Warranty Range

- (1) The customer shall be responsible for the primary failure diagnosis unless otherwise specified.
If requested by the customer, Mitsubishi Electric Corporation or its representative firm may carry out the primary failure diagnosis at the customer's expense. The primary failure diagnosis will, however, be free of charge should the cause of failure be attributable to Mitsubishi Electric Corporation.
- (2) The range shall be limited to normal use within the usage state, usage methods, usage environment, etc. which follow the conditions, precautions, etc. given in the instruction manual, user's manual, caution labels on the product, etc.
- (3) Even within the gratis warranty term, repairs shall be charged for in the following cases.
 - ① Failure occurring from inappropriate storage or handling, carelessness or negligence by the user. Failure caused by the user's hardware or software design.
 - ② Failure caused by unapproved modifications, etc., to the product by the user.
 - ③ When the Mitsubishi product is assembled into a user's device, Failure that could have been avoided if functions or structures, judged as necessary in the legal safety measures the user's device is subject to or as necessary by industry standards, had been provided.
 - ④ Failure that could have been avoided if consumable parts designated in the user's manual etc. had been correctly serviced or replaced.
 - ⑤ Replacement of consumable parts (battery, display device, touch panel, fuse, etc.).
 - ⑥ Failure caused by external irresistible forces such as fires or abnormal voltages, and Failure caused by force majeure such as earthquakes, lightning, wind and water damage.
 - ⑦ Failure caused by reasons unpredictable by scientific technology standards at time of shipment from Mitsubishi.
 - ⑧ Any other failure found not to be the responsibility of Mitsubishi or that admitted not to be so by the user.

Onerous repair term after discontinuation of production

- (1) Mitsubishi shall accept onerous product repairs for seven (7) years after production of the product is discontinued. Discontinuation of production shall be notified with Mitsubishi Technical Bulletins, etc.
- (2) Product supply (including repair parts) is not available after production is discontinued.

Overseas service

Overseas, repairs shall be accepted by Mitsubishi's local overseas FA Center. Note that the repair conditions at each FA Center may differ.

Exclusion of loss in opportunity and secondary loss from warranty liability

Regardless of the gratis warranty term, Mitsubishi shall not be liable for compensation to damages caused by any cause found not to be the responsibility of Mitsubishi, loss in opportunity, lost profits incurred to the user by Failures of Mitsubishi products, special damages and secondary damages whether foreseeable or not, compensation for accidents, and compensation for damages to products other than Mitsubishi products, replacement by the user, maintenance of on-site equipment, start-up test run and other tasks.

Changes in product specifications

The specifications given in the catalogs, manuals or technical documents are subject to change without prior notice.

Product application

- (1) In using the Mitsubishi graphic operation terminal, the usage conditions shall be that the application will not lead to a major accident even if any problem or fault should occur in the graphic operation terminal device, and that backup and fail-safe functions are systematically provided outside of the device for any problem or fault.
- (2) The Mitsubishi graphic operation terminal has been designed and manufactured for applications in general industries, etc. Thus, applications in which the public could be affected such as in nuclear power plants and other power plants operated by respective power companies, and applications in which a special quality assurance system is required, such as for Railway companies or Public service purposes shall be excluded from the graphic operation terminal applications. In addition, applications in which human life or property that could be greatly affected, such as in aircraft, medical applications, incineration and fuel devices, manned transportation equipment for recreation and amusement, and safety devices, shall also be excluded from the graphic operation terminal range of applications.
However, in certain cases, some applications may be possible, providing the user consults the local Mitsubishi representative outlining the special requirements of the project, and providing that all parties concerned agree to the special circumstances, solely at our discretion. In some of these cases, however, Mitsubishi Electric Corporation may consider the possibility of an application, provided that the customer notifies Mitsubishi Electric Corporation of the intention, the application is clearly defined and any special quality is not required.

CC-Link Partner Association (CLPA) - Actively promoting worldwide adoption of CC-Link networks

Proactively supporting CC-Link, from promotion to specification development

The CC-Link Partner Association (CLPA) was established to promote the worldwide adoption of the CC-Link open-field network. By conducting promotional activities such as organizing trade shows and seminars, conducting conformance tests, and providing catalogs, brochures and website information, CLPA activities are successfully increasing the number of CC-Link partner manufacturers and CC-Link-compatible products. As such, CLPA is playing a major role in the globalization of CC-Link.

Seminar

Trade show

Conformance testing lab

Visit the CLPA website for the latest CC-Link information.

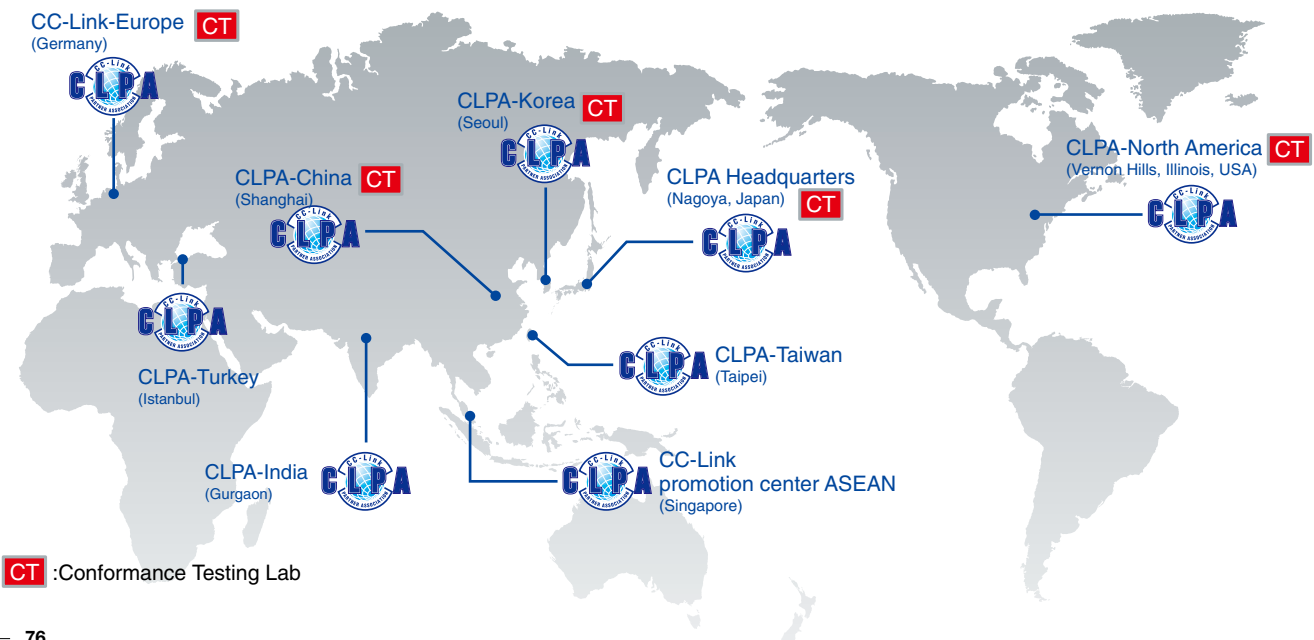

URL:<http://www.cc-link.org>

6F Ozone Front Bldg. 3-15-58 Ozone
Kita-ku, Nagoya 462-0825, JAPAN
TEL: +81-52-919-1588 FAX: +81-52-916-8655
E-mail:info@cc-link.org

Global influence of CC-Link continues to spread

CC-Link is supported globally by CLPA. With offices throughout the world, support for partner companies can be found locally. Each regional CLPA office undertakes various support and promotional activities to further the influence of the network in that part of the world. For companies looking to increase their presence in Asia, CLPA is well placed to assist these efforts through offices in all major Asian regions.

Revolutionary, next-generation controllers building a new era in automation

MELSEC iQ-R series

As the core for the next-generation automation environment, realizing an automation controller with added value while reducing TCO

To succeed in highly competitive markets, it's important to build automation systems that ensure high productivity and consistent product quality. The MELSEC iQ-R Series has been developed from the ground up based on common problems faced by customers and rationalizing them into seven key areas: Productivity, Engineering, Maintenance, Quality, Connectivity, Security and Compatibility. Mitsubishi Electric is taking a three-point approach to solving these problems: **Reduce TCO***, increasing **Reliability** and **Reuse** of existing assets. As a bridge to the next generation in automation, the MELSEC iQ-R Series is a driving force behind **revolutionary** progress in the future of manufacturing.

*TCO: Total cost of ownership

Reduce TCO

Productivity
Improve productivity through advanced performance/functionality

- New high-speed system bus realizing shorter production cycle
- Super-high-accuracy motion control utilizing advanced multiple CPU features
- Inter-modular synchronization resulting in increased processing accuracy

Engineering
Reducing development costs through intuitive engineering

- Intuitive engineering environment covering the product development cycle
- Simple point-and-click programming architecture
- Understanding globalization by multiple language support

Maintenance
Reduce maintenance costs and downtime utilizing easier maintenance features

- Visualize entire plant data in real-time
- Extensive preventative maintenance functions embedded into modules

Connectivity
Seamless network reduces system costs

- Seamless connectivity within all levels of manufacturing
- High-speed and large data bandwidth ideal for large-scale control systems
- Easy connection of third-party components utilizing device library

Reliability

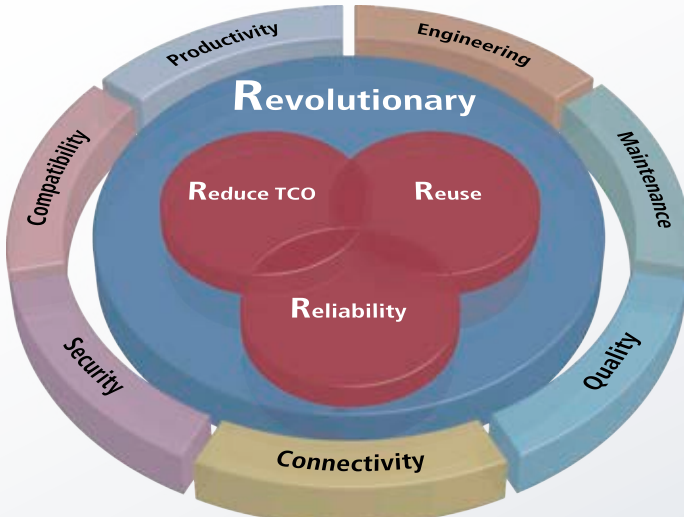

Security
Robust security that can be relied on

- Protect intellectual property
- Unauthorized access protection across distributed control network

Quality
Reliable and trusted MELSEC product quality

- Robust design ideal for harsh industrial environments
- Improve and maintain actual manufacturing quality
- Conforms to main international standards

Reuse

Compatibility
Extensive compatibility with existing products

- Utilize existing assets while taking advantage of cutting-edge technology
- Compatible with most existing MELSEC-Q Series I/O

One Software, Many Possibilities

GX Works3

Intuitive and easy engineering

With GX Works3 programming cannot be made any easier with various intuitive features such as graphic-based system configuration and an extensive module library provided as standard. In addition to multiple language support realizing a global engineering tool required for current automation needs.

For details, please refer to the "MELSEC iQ-R Series iQ Platform-compatible PAC" catalog.

The release date varies depending on the product and your region. For details, please contact your local sales office.

FA Products

PLC

MELSEC-Q Series Universal Model

Introducing the high-speed QCPU (QnUDVCPU) for faster processing of large data volumes.

- ◎Realize high-speed, high-accuracy machine control with various iQ Platform compatible controllers and multiple CPUs.
- ◎Easily connect to GOTs and Programming tools using built-in Ethernet port.
- ◎25 models from 10K steps small capacity to 1000K steps large capacity, are available.
- ◎Seamless communication and flexible integration at any network level.

Product Specifications

Program capacity	10K steps to 1000K steps
Number of I/O points [X/Y], number of I/O device points [X/Y]	256 points to 4096 points/8192 points
Basic instruction processing speed (LD instruction)	120 ns to 1.9 ns
External connection interface	USB (all models equipped), Ethernet, RS-232, memory card, extended SRAM cassette
Function module	I/O, analog, high-speed counter, positioning, simple motion, temperature input, temperature control, network module
Module extension style	Building block type
Network	Ethernet, CC-Link IE controller network, CC-Link IE field network, CC-Link, CC-Link/LT, MELSECNET/H, SSCNETIII (/H), AnyWire, RS-232, RS-422

Programmable Controller | MELSEC-L Series

“Light & Flexible” condensing various functions easily and flexibly.

- ◎CPU equipped as a standard with various functions including counter, positioning and CC-Link.
- ◎The base-less structure with high degree of freedom saves space in the control panel.
- ◎Easily confirm the system status and change the settings with the display unit.
- ◎Ten models are available in program capacities from 20 k steps to 260 k steps.

Product specifications

Program capacity	20 k steps/60 k steps/260 k steps
Number of input/output points [X/Y]	1024 points/4096 points
Number of input/output device points [X/Y]	8192 points
Basic instruction processing speed (LD instruction)	60 ns/ 40 ns/ 9.5 ns
External connection interface	USB, Ethernet, RS-232, SD memory card, CC-Link (L26CPU-BT/PBT)
Function modules	I/O, analog, high-speed counter, positioning, simple motion, temperature control, network module
Unit expansion style	Base-less structure
Network	Ethernet, CC-Link IE Field network, CC-Link, CC-Link/LT, SSCNETIII(/H), RS-232, RS-422

PLC

MELSEC-F Series

All-in-One Micro Programmable Controller equipped with all necessary functions in a compact body

- ◎Supporting small-scale control from 10 points to 384 points (using CC-Link) with an outstanding cost performance.
- ◎Wide range of options available for additional functions required by your system.
- ◎Easy to use and highly reliable. More than 12 million units have shipped worldwide. (April 2013)
- ◎Small-scale control is available in various networks such as CC-Link, Ethernet, and MODBUS.

Product specifications

Program capacity	16k steps (FX3S) to 64 k steps (FX3U/FX3UC)
Number of input/output points	10 points (FX3S) to 384 points (FX3U/FX3UC with CC-Link)
Basic instruction processing speed	0.21 μs (FX3S) to 65 ns (FX3U/FX3UC)
External connection interface	RS-422, USB (FX3S/FX3G/FX3GC/FX3GE only), Ethernet (FX3GE only), CC-Link/LT (FX3UC-32MT-LT(-2) only)
Built-in functions	I/O, high-speed counter input, positioning pulse output, analog (FX3GE only)
Extended functions	I/O, analog, temperature control, high-speed counter, positioning, network
Unit expansion style	Backplane-less design
Network	Ethernet, CC-Link, CC-Link/LT, SSCNETIII, CANopen, J1939, RS-232C, RS-422, RS-485, MODBUS

Industry-leading level of high performance servo

- ◎ Industry-leading level of basic performance: Speed frequency response (2.5kHz), 4,000,000 (4,194,304p/rev) encoder
- ◎ Advanced one-touch tuning function achieves the one-touch adjustment of advanced vibration suppression control II, etc.
- ◎ Equipped with large capacity drive recorder and machine diagnosis function for easy maintenance.
- ◎ 2-axis and 3-axis servo amplifiers are available for energy-conservative, space-saving, and low-cost machines.

Product Specifications

Power supply specifications	1-phase/3-phase 200V AC, 1-phase 100V AC, 3-phase 400V AC
Command interface	SSCNET III/H, SSCNET III (compatible in J3 compatibility mode), CC-Link IE Field Network interface with Motion, pulse train, analog
Control mode	Position/Speed/Torque/Positioning function/Fully closed loop
Speed frequency response	2.5kHz
Tuning function	Advanced one-touch tuning, advanced vibration suppression control II, robust filter, etc.
Functional safety	Conforms to functions of IEC/EN 61800-5-2, STO: Category 3 PL d, SIL 2 Conforms to Category 4 PL e, SIL 3 by a combination with MR-D30 functional safety unit
Compatible servo motor	Rotary servo motor (rated output: 0.05 to 55kW), linear servo motor (continuous thrust 50 to 3000N), direct drive motor (rated torque: 2 to 240N·m)

High performance and easy to use servo system for all machines

- ◎ Easy To Use: The advanced one-touch tuning function enables servo adjustment with one-touch ease without a personal computer.
- ◎ High Performance: Class top-level basic performance including speed frequency response of 2.0kHz.
- ◎ Global Standard: Digital input/output is compatible with both sink and source type connections as a standard.

Product specifications

Power supply specifications	1-phase/3-phase 200V AC
Command interface	Pulse train, analog
Control mode	Position/speed/torque
Speed frequency response	2.0kHz
Tuning function	Advanced one-touch tuning, advanced vibration control II, robust filter, etc.
Compatible servo motor	Rotary servo motor (rated output: 0.1 to 3kW)

High-functionality, high-performance inverter

- ◎ Realize even higher responsiveness during real sensor-less vector control or vector control, and achieve faster operating frequencies.
- ◎ The latest automatic tuning function supports various induction motors and also sensor-less PM motors.
- ◎ The standard model is compatible with EU Safety Standards STO (PLd, SIL2). Add options to support higher level safety standards.
- ◎ Control and monitor inverters via CC-Link/CC-Link IE Field Network (option interface).

Product Specifications

Inverter capacity	200V class: 0.4kW to 90kW, 400V class: 0.4kW to 500kW
Control method	High-carrier frequency PWM control (Select from V/F, advanced magnetic flux vector, real sensorless vector or PM sensorless vector control), vector control (when using options)
Output frequency range	0.2 to 590Hz (upper limit is 400Hz when using advanced magnetic flux vector control, real sensorless vector control, vector control or PM sensorless vector control)
Regenerative braking torque (Maximum allowable duty)	200V class: 0.4K to 1.5K (150% at 3%ED) 2.2K/3.7K (100% at 3%ED) 5.5K/7.5K (100% at 2%ED) 11K to 55K (20% continuous) 75K or more (10% continuous), 400V class: 0.4K to 7.5K (100% at 2%ED) 11K to 55K (20% continuous) 75K or more (10% continuous)
Starting torque	200% 0.3Hz (3.7K or less), 150% 0.3Hz (5.5K or more) (when using real sensorless vector, vector control)

FA Products

Sensor-less Servo

FR-E700EX Series, MM-GKR Series

Compact and high-function drive unit, low-inertial small capacity sensor-less PM motor

- ◎Use PM sensor-less vector control to control dedicated PM motors with high accuracy without an encoder.
- ◎High-accuracy speed control (speed fluctuation rate $\pm 0.05\%$) and positioning control are supported.
- ◎The dedicated PM motor (MM-GKR) is quiet as it has no cooling fan. The compact and lightweight unit also supports reduction gears.
- ◎The standard model supports RS-485 communication. CC-Link communication is supported with an additional option.

Product Specifications

Drive unit / motor capacity	200V class: 0.1kW to 0.75kW
Control method	PM sensor-less vector control (low speed range: high frequency superimposition control)
Rated speed	3000r/min
Speed fluctuation rate	$\pm 0.05\%$ (at 0 to 100% load fluctuation)
Position control	The point table method and zero point return enable position control with absolute position commands
Command input method	$\pm 1.8^\circ$ (machine angle: equivalent to 200 [pulses/rev] resolution, input voltage 200V, wiring length within 5m)
Positioning accuracy	
Starting torque	200% (default value)
Communication specifications	Built-in: RS-485 communication (Mitsubishi inverter protocol, Modbus-RTU protocol), option: CC-Link communication

Three-Phase Motor

High Performance Energy-Saving Motor

Super Line Premium Series

SF-PR

Premium Efficiency & Compatible. New Launch of Super Line Premium Series SF-PR Model

- ◎Compared to general-purpose motor SF-JR model, generated loss is reduced by 37% on average, and it is compatible with highly efficient premium IE3.
- ◎Easy replacement is achieved as mounting dimension (frame number) is compatible with general-purpose motor SF-JR model.
- ◎One motor can accommodate different power sources of Japan and the U.S. Three ratings in Japan meet the Top Runner standards, while it corresponds to EISA in the U.S.
- ◎Can be driven by inverters as standard. Advanced magnetic-flux vector control by our FR-A800/700 achieves steady torque drive up to 0.5Hz.

Product Specifications

Number of poles	2-poles, 4-poles, 6-poles
Voltage·Frequency	200/200/220/230V 50/60/60/60Hz EISA 230V 60Hz or 400/400/440/460V 50/60/60/60Hz EISA 460V 60Hz
Exterior	Totally enclosed fan cooled type (inside, outside installation)
Protection system	IP44
Electrically-driven power system	Motor with 2-poles over 11kW is dedicated for a direct connection. Motors with 4-poles and 6-poles are for both direct and crossed belt connections.
Rotation direction	Counter-clock-wise (CCW) direction viewed from the edge of axis.
Compatible standard	JEC-2137-2000 (Efficiency is compatible with IEC 60034-30.)

Robot

MELFA F Series

High speed, high precision and high reliability industrial robot

- ◎Compact body and slim arm design, allowing operating area to be expanded and load capacity increased.
- ◎The fastest in its class using high performance motors and unique driver control technology.
- ◎Improved flexibility for robot layout design considerations.
- ◎Optimal motor control tuning set automatically based on operating position, posture, and load conditions.

Product Specifications

Degrees of freedom	Vertical:6 Horizontal:4
Installation	Vertical:Floor-mount, ceiling mount, wall mount (Range of motion for J1 is limited) Horizontal:Floor-mount
Maximum load capacity	Vertical:2-20kg Horizontal:3-20kg
Maximum reach radius	Vertical:504-1503mm Horizontal:350-1,000mm

Magnetic Starter

MS-T Series

Exceed your expectations.

- ◎10A frame model is over 16% smaller with a width of just 36mm!!
- ◎New integrated terminal covers.
- ◎Reduce your coil inventory by up to 50%.
- ◎Be certified to the highest international levels while work is ongoing to gain other country.

Product specifications

Frame	10 A to 32 A
Applicable standards	Certification to various standards including IEC, JIS, CE, UL, TÜV, CCC.
Terminal cover	Standard terminal cover improves safety, simplifies ordering, and reduces inventory, etc.
Improved wiring	Wiring and operability are improved with streamlining wiring terminal BC specifications.
Operation coil rating	Wide range of operation coil ratings reduces number of coil types from 14 (N Series) to 7 types and simplifies selection.
Option units	Diverse lineup includes Auxiliary Contact Block, Operation Coil Surge Absorber Unit, Mechanical Interlock Unit.

Low Voltage Circuit Breakers

Mitsubishi WS-V Series Molded Case Circuit Breakers, Earth Leakage Circuit Breakers

Technologies based on long year experience realize more improved performance.

- ◎The new electronic circuit breakers can display various measurement items.
- ◎Improvement of breaking performance with new breaking technology “Expanded ISTAC”.
- ◎Compliance with global standard for panel and machine export.
- ◎Commoditization of internal accessories for shorter delivery time and stock reduction.

Product Specifications.

Frame	32-250A Frame
Applicable standard	Applicable to IEC, GB, UL, CSA, JIS and etc.
Expansion of UL listed product line-up	New line-up of 480VAC type with high breaking performance for SCCR requirement
Commoditization of internal accessories	Reduction of internal accessory types from 3 to 1
Commoditization for AC and DC circuit use	Common use of 32/63A frame in both AC and DC circuit
Compact size for easy to use	Thermal adjustable and electronic circuit breakers are same size as 250AF fixed type
Measuring Display Unit (MDU) breakers	MDU breakers measure, display and transmit energy date to realize energy management.

Low-voltage switch

Mitsubishi Motor Circuit Breaker MMP-T Series

Introducing a Motor Circuit Breaker from Mitsubishi Electric!

- ◎Design smaller panels by using the Motor Circuit Breaker, various options and MS-T Series Magnetic Contactor.
- ◎Prevent secondary damage with Motor Circuit Breaker and Magnetic Contactor combination.
- ◎Streamlined wiring terminal BC specifications (option) contribute to improving your productivity.
- ◎Supports your overseas business with compliance to various International Standards as well as the UL Type E/F combination.

Product specifications

Rated current	0.16 A to 32 A (15 types)
Applicable (compliant) standards	Standard product compliant with various International Standards including IEC, JIS, CCC, TÜV and UL (certified)
Wiring types	Bare wire, rod terminal, Y crimp and round crimp supported
Improvement of wiring	Wiring and operability are improved with connection conductor unit and streamlined wiring terminal BC specifications (option)
Optional units	Auxiliary/Alarm Contact Unit, Short-Circuit Indicator Unit, Line Side Terminal Adapter, Connection Conductor Unit, etc., available
DIN rail mounting	Standard product mountable on rail
Finger protection support	Standard product compliant with IP20 from front side of terminals
Application in North America	Type E/F combination certification acquired. Compatible up to maximum SCCR value 50 kA

FA Products

CNC | Mitsubishi Numerical Control Unit C70 Series

iQ Platform compatible CNC to provide TCO reduction effect.

- ◎A CNC structured in building block method on iQ Platform.
- ◎High performance CNC integrated with high-speed PLC offers high-speed control to reduce cycle time.
- ◎A wide variety of FA products helps construct flexible lines.

Product specifications

Maximum number of control axes (NC axis + spindle + PLC axis)	16 axes
Maximum number of part system	Machining center system: 7 systems, Lathe system: 3 systems
Maximum number of NC axes per part system	8 axes
Maximum program capacity	2,000 KB (5,120 m)
Maximum number of files to store	124 files/252 files
Number of input/output points	4,096 points
Safety observation function	Safety signal comparison function, speed monitoring function, duplexed emergency stop

EDM | Wire EDM MV1200R

Next-generation Innovations of our best selling Performance Machine.

- ◎Total running cost reduced up to 42%, which is accounted for 90% by filter, ion exchange resin and power consumption.
- ◎Improved productivity by an innovative automatic wire threading.
- ◎Faster machining is realized with improved power-supply performance.
(Rz3. 5μm/Ra0. 45μm with 3cuts) (Rz2. 0μm/Ra0. 28μm with 4cuts)

Product Specifications

Model	MV1200R
Machining travel (X×Y×Z)[mm] (in)	400(15.7)×300(11.8)×220(8.7)(XY axis OPT-drive specifications)
Machining travel (U×V)[mm] (in)	±60(2.4)×±60(2.4)(OPT-drive specifications)
Max. taper angle [°]	15° (maximum 200mm)(7.9°)
Max. workpiece dimensions [mm] (in)	810(31.9)×700(27.6)×215(8.5)
Wire diameter [mm] (in)	0.1(.004) to 0.3(.012)*1
Dielectric fluid	Water
Footprint (W×D)[mm] (in)	2025(79.7)×2760(108.7)

*1: Φ0.2(0.08) DD guides and Φ1.5(0.06) jet nozzle are standard equipment.

Laser Processing Machine | CO₂ 2-Dimensional Laser Processing Machine eX-Series

A global standard CO₂ 2-dimensional laser processing systems.

- ◎Productivity has been dramatically enhanced owing to improved acceleration and the latest control technologies exclusive to Mitsubishi Electric.
 - ◎2 Action Cutting allows for the entire process, from job setup to parts cutting, to be completed in two simple actions.
 - ◎When not processing, the system switches to ECO mode and the resonator stops idling. Minimizes energy consumption, reducing running costs by up to 99%*1 during standby.
- *1: Compared to the previous LV-Series with Mitsubishi's designated benchmark shape.

Product specifications

Model Name	ML3015eX
Drive system	Flying optic (3-axis beam movement)
Stroke (X×Y×X) [mm]	3100×1565×150
Rapid feedrate [m/min]	X,Y axes: Max. 100; Z-axis: Max. 65
Processing feedrate [m/min]	Max. 50
Positioning accuracy [mm]	0.05 / 500 (X,Y axes)
Repeat accuracy [mm]	± 0.01 (X,Y axes)
Rated output [W]	4500

Mitsubishi's products comply with various standards and laws.

Mitsubishi's products also comply with various safety standards including UL standards, shipping standards, and radio laws.

<Safety Standards>

Mark	Standards/Agency	Country/Region
CE	EN Standards	Europe
UL	UL Standards	United States
cUL	Canadian Standards Association (CSA)	Canada

<Radio Laws>

Mark	Law	Country
KC	Korea Radio Waves Act	Korea

For the details on the approval model within each standards, please contact your local sales office.

<Shipping Standards> To be obtained soon

Abbrev.	Certification Organization	Country
ABS	American Bureau of Shipping	United States
BV	Bureau Veritas	France

Precautions before use

This publication explains the typical features and functions of the products herein and does not provide restrictions or other information related to usage and module combinations. Before using the products, always read the product user manuals. Mitsubishi Electric will not be held liable for damage caused by factors found not to be the cause of Mitsubishi Electric; opportunity loss or lost profits caused by faults in Mitsubishi Electric products; damage, secondary damage, or accident compensation, whether foreseeable or not, caused by special factors; damage to products other than Mitsubishi Electric products; or any other duties.

For safe use

- To use the products given in this publication properly, always read the relevant manuals before beginning operation.
- The products have been manufactured as general-purpose parts for general industries, and are not designed or manufactured to be incorporated in a device or system used in purposes related to human life.
- Before using the products for special purposes such as nuclear power, electric power, aerospace, medicine or passenger-carrying vehicles, consult with Mitsubishi Electric.
- The products have been manufactured under strict quality control. However, when installing the products where major accidents or losses could occur if the products fail, install appropriate backup or fail-safe functions in the system.
